BIHAR STET
COMPUTER SCIENCE

Paper II (Classes 11–12) | Topic-wise Previous-Year Questions

Included source papers

• 2023 | 12 Sep 2023 | Shift 1

• 2024 | 12 Jun 2024 | Shift 2

• 2025 | 03 Nov 2025 | Shift 1

• 2025 | 03 Nov 2025 | Shift 2

• 2025 | 04 Nov 2025 | Shift 2

• 2025 | 07 Nov 2025 | Shift 1

Important answer-key note

The 2023 and 12 June 2024 source PDFs provide a “Right Answer” / “Correct Answer” field; those answers are reproduced as printed in the source. The four 2025 papers contain candidate-response records but do not provide a verified answer key in the extracted source. For those questions, the answer line explicitly says that a verified key was not supplied. “Chosen Option” is not treated as the correct answer.

Coverage limitation

The 2019 and 2020 files available in this conversation are image/scanned or otherwise not text-extractable with the available extraction pass. They are therefore not represented in this searchable topic-wise compilation. The 2023 file appeared twice under different filenames and is included only once. This PDF covers the extractable MCQs from the 2023 paper, the 12 June 2024 Shift 2 paper, and the four supplied 2025 shifts.

How to use

Questions are grouped by the topic inferred from their wording. Original question numbering and paper/shift labels are retained. A few items may fall under a broad or approximate topic because the source does not consistently provide a formal topic taxonomy.

Digital Electronics & Boolean Algebra

2023 | 12 Sep 2023 | Shift 1 | Q1

Question 1 Question Id : 1
What is the simplified expression for the Boolean function F(A, B, C, D) = Σ(0, 1, 2, 4, 5, 6, 8, 9, 10, 12, 13, 14) using the K-map method?

A. A'B'C'D' + A'B'C'D + A'BC'D + AB'C'D + ABCD
1001

B. A'B'C'D' + A'BC'D + AB'C'D + ABC'D + ABCD
1002

C. A'B'C'D' + A'BC'D + ABC'D + ABCD
1003

D. A'B'C'D' + A'BC'D' + A'BCD + ABCD
1004

Correct option (as printed in source): A. A'B'C'D' + A'B'C'D + A'BC'D + AB'C'D + ABCD
1001

2023 | 12 Sep 2023 | Shift 1 | Q2

Question 2 Question Id : 55
In a PLA, what components are used to implement the combinational logic functions?

A. AND gates and OR gates
55001

B. NAND gates and XOR gates
55002

C. NOR gates and XNOR gates
55003

D. NOT gates and multiplexers
55004

Correct option (as printed in source): A. AND gates and OR gates
55001

2023 | 12 Sep 2023 | Shift 1 | Q3

Question 3 Question Id : 54
Which type of register is primarily used to temporarily hold data during arithmetic and logical operations in a microprocessor?

A. Shift register
54001

B. Parallel register
54002

C. Accumulator register
54003

D. Counter register
54004

Correct option (as printed in source): C. Accumulator register
54003

2023 | 12 Sep 2023 | Shift 1 | Q4

Question 4 Question Id : 53
Which logic family uses both depletion and enhancement mode MOSFETs for its operation?

A. TTL
53001

B. ECL
53002

C. PMOS
53003

D. CMOS
53004

Correct option (as printed in source): D. CMOS
53004

2023 | 12 Sep 2023 | Shift 1 | Q6

Question 6 Question Id : 51
Given a Boolean function F(A, B, C) = Σ(0, 1, 2, 3, 5), what is the expression in SOP form?

A. A'B' + AB' + AB + AC
51001

B. A + B + C
51002

C. AB' + C'
51003

D. A'B'C'
51004

Correct option (as printed in source): A. A'B' + AB' + AB + AC
51001

2023 | 12 Sep 2023 | Shift 1 | Q7

Question 7 Question Id : 50
If the sum of two positive binary numbers is 11010 and there is a carry-out from the MSB, what should be done to obtain the correct result?

A. Discard the carry
50001

B. Add the carry to the least significant bit (LSB)
50002

C. Add the carry to the most significant bit (MSB)
50003

D. Subtract the carry from the MSB
50004

Correct option (as printed in source): B. Add the carry to the least significant bit (LSB)
50002

2023 | 12 Sep 2023 | Shift 1 | Q8

Question 8 Question Id : 49
In binary multiplication using the simple method, what is the first step after aligning the digits and preparing for multiplication?

A. Multiply the least significant bit (LSB) by the multiplier
49001

B. Multiply the most significant bit (MSB) by the multiplier
49002

C. Multiply the least significant bit (LSB) by the multiplicand
49003

D. Multiply the most significant bit (MSB) by the multiplicand
49004

Correct option (as printed in source): A. Multiply the least significant bit (LSB) by the multiplier
49001

2023 | 12 Sep 2023 | Shift 1 | Q9

Question 9 Question Id : 48
What is the relationship between the distance between parity bits and their error detection and correction capability in Hamming Code?

A. Closer parity bits provide higher error correction capability
48001

B. Closer parity bits provide lower error correction capability
48002

C. Distance between parity bits has no impact on error correction capability
48003

D. The position of parity bits is irrelevant in Hamming Code
48004

Correct option (as printed in source): B. Closer parity bits provide lower error correction capability
48002

2023 | 12 Sep 2023 | Shift 1 | Q10

Question 10 Question Id : 47
To convert a Gray Code to its binary equivalent, which technique is commonly used?

A. Subtraction method
47001

B. Addition method
47002

C. Exclusive OR (XOR) operation
47003

D. Division method
47004

Correct option (as printed in source): C. Exclusive OR (XOR) operation
47003

2023 | 12 Sep 2023 | Shift 1 | Q29

Question 29 Question Id : 65
File manipulation operations in an operating system include:

A. Allocating memory to files
65001

B. Assigning file names to processes
65002

C. Loading files into CPU registers
65003

D. Reading, writing, and modifying file content
65004

Correct option (as printed in source): D. Reading, writing, and modifying file content
65004

2023 | 12 Sep 2023 | Shift 1 | Q71

Question 71 Question Id : 23
For a DFA accepting binary numbers whose decimal equivalent is divisible by 3, what are all the possible remainders?

A. 0
23001

B. 0,2
23002

C. 0,1,2
23003

D. 0,1,2,3
23004

Correct option (as printed in source): C. 0,1,2
23003

2024 | 12 Jun 2024 | Shift 2 | Q301

Convert the Boolean function F(A, B, C) = Σ(2, 4, 5, 6) to its simplified SOP form.

[illegible] F (A, B, C) = σ (2, 4, 5, 6) [illegible] SOP [illegible]

A. A + B + C

B. A'B + AC

C. A + B + C'

D. A'B'C

Correct option (as printed in source): C. A + B + C'

2024 | 12 Jun 2024 | Shift 2 | Q303

Which flip-flop type is known for having a forbidden state, where both inputs are set to '1'?

[illegible]?

A. S-R flip-flop

B. J-K flip-flop

C. D flip-flop

D. T flip-flop

Correct option (as printed in source): A. S-R flip-flop

2024 | 12 Jun 2024 | Shift 2 | Q304

In a Johnson counter, how many possible states can be represented by 'n' flip-flops?

[illegible]?

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODEw… 2/75

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

A. n

B. 2n

C. 2^n

D. 2^(n-1)

Correct option (as printed in source): C. 2^n

2024 | 12 Jun 2024 | Shift 2 | Q305

Which logic family uses both depletion and enhancement mode MOSFETs for its operation?

[illegible] MOSFETs [illegible]?

A. TTL

B. ECL

C. PMOS

D. CMOS

Correct option (as printed in source): D. CMOS

2024 | 12 Jun 2024 | Shift 2 | Q306

Gray Code is commonly used in which application?

[illegible]?

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODEw… 3/75

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

- **A.** Digital communications
- **B.** Data encryption
- **C.** Analog-to-digital conversion
- **D.** Error detection

Correct option (as printed in source): C. Analog-to-digital conversion

2024 | 12 Jun 2024 | Shift 2 | Q307

A binary-to-gray code converter is an example of:

[illegible]:

- **A.** Encoder
- **B.** Decoder
- **C.** Comparator
- **D.** Multiplexer

Correct option (as printed in source): A. Encoder

2024 | 12 Jun 2024 | Shift 2 | Q308

In binary multiplication using the simple method, what is the first step after aligning the digits and preparing for multiplication?

[illegible]?

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODEw… 4/75

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

- **A.** Multiply the least significant bit (LSB) by the multiplier
- **B.** Multiply the most significant bit (MSB) by the multiplier
- **C.** Multiply the least significant bit (LSB) by the multiplicand
- **D.** Multiply the most significant bit (MSB) by the multiplicand

Correct option (as printed in source): A. Multiply the least significant bit (LSB) by the multiplier

2024 | 12 Jun 2024 | Shift 2 | Q309

In Hamming Code, how are parity bits positioned within a data unit?

[illegible], [illegible]?

A. At the beginning of the data unit

B. At the end of the data unit

C. At specific positions based on powers of 2

D. At random positions within the data unit

Correct option (as printed in source): C. At specific positions based on powers of 2

2024 | 12 Jun 2024 | Shift 2 | Q313

What is the Gray Code equivalent of the binary number 1101?

[illegible] 1101 [illegible]?

A. 1110

B. 1011

C. 1010

D. 1001

Correct option (as printed in source): B. 1011

2024 | 12 Jun 2024 | Shift 2 | Q319

The first problem to be proven NP-Complete was the:

[illegible]:

A. Travelling Salesman Problem

B. Hamiltonian Cycle Problem

C. Boolean Satisfiability Problem (SAT)

D. Knapsack Problem

Correct option (as printed in source): C. Boolean Satisfiability Problem (SAT)

2024 | 12 Jun 2024 | Shift 2 | Q369

For a DFA accepting binary numbers whose decimal equivalent is divisible by 3, what are all the possible remainders?

[illegible] DFA [illegible] 3 [illegible], [illegible]?

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODE… 34/75

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

A. 0

B. 0,2

C. 0,1,2

D. 0,1,2,3

Correct option (as printed in source): C. 0,1,2

2025 | 03 Nov 2025 | Shift 1 | Q26

Given binary numbers A = 101010 and B = 111111, what is the result of (A AND B) OR (A XOR B)?

A. 111111

B. 101111

C. 111010

D. 101010

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q36

What is the typical operating voltage range for TTL logic family?

A. 1.8 V to 3.3 V

B. 3.3 V to 5.0 V

C. 5.0 V to 12 V

D. -5.0 V to 5.0 V

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q55

The range of numbers that can be represented in an n-bit 1's complement system is from:

A. -2^(n-1) to 2^(n-1) - 1

B. 0 to 2^n - 1

C. -2^(n-1) to 2^(n-1)

D. -2^n to 2^n - 1

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q72

What is the POS form of the Boolean expression F(A, B, C) = Π(1, 2, 4, 6)?

A. (A + B + C ') (A + B' + C)(A '+ B + C)

B. (A' + B + C) (A '+ B + C)

C. (A' + B + C ') (A + B + C') (A '+ B + C)

D. (A + B' + C) (A + B '+ C) (A' + B + C)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q91

The complement of a language will only be defined when and only when the _____ over the language is defined.

A. Alphabet

B. Word

C. String

D. Grammar

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q93

In Excess-3 Code, why is the code considered self-complementing?

A. Because it can be converted to ASCII directly

B. Because the 9's complement of each digit can be obtained by inverting its bits

C. Because it is used for financial calculations

D. Because it is a form of Gray code

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q99

File manipulation operations in an operating system include:

A. Allocating memory to files

B. Assigning file names to processes

C. Loading files into CPU registers

D. Reading, writing, and modifying file content

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q33

The hexadecimal number F4 is equivalent to which binary number?

A. 11111001

B. 11110100

C. 11111100

D. 11111010

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q45

A priority encoder is used to:

A. Convert binary information into a more compact form

B. Assign priority to input lines based on their values

C. Compare two binary numbers

D. Combine multiple input signals into a single output

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q62

What is the relationship between the distance between parity bits and their error detection and correction capability in Hamming Code?

A. Closer parity bits provide higher error correction capability

B. Closer parity bits provide lower error correction capability

C. Distance between parity bits has no impact on error correction capability

D. The position of parity bits is irrelevant in Hamming Code

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q76

A technique that was developed to determine whether a machine could or could not demonstrate the artificial intelligence known as the___?

A. Algorithm

B. Logaritham

C. Turing Test

D. Boolean algebra

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q84

What is the simplified expression for the Boolean function F(A, B, C, D) = Σ(0, 1, 2, 4, 5, 6, 8, 9, 10, 12, 13, 14) using the K-map method?

A. A'B'C'D' + A'B'C'D + A'BC'D + AB'C'D + ABCD

B. A'B'C'D' + A'BC'D + AB'C'D + ABC'D + ABCD

C. A'B'C'D' + A'BC'D + ABC'D + ABCD

D. A'B'C'D' + A'BC'D' + A'BCD + ABCD

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q92

Given a Boolean function F(A, B, C) = Σ(0, 1, 2, 3, 5), what is the expression in SOP form?

A. A'B' + AB' + AB + AC

B. A + B + C

C. AB' + C'

D. A'B'C'

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q94

When adding two positive binary numbers using the 2's complement method, if the result has a carry-out from the most significant bit (MSB), what should be done?

A. Ignore the carry

B. Add the carry to the least significant bit (LSB)

C. Add the carry to the sign bit

D. Subtract the carry from the MSB

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q3

For a DFA accepting binary numbers whose decimal equivalent is divisible by 3, what are all the possible remainders?

A. 0

B. 0,2

C. 0,1,2

D. 0,1,2,3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q47

To convert a Gray Code to its binary equivalent, which technique is commonly used?

A. Subtraction method

B. Addition method

C. Exclusive OR (XOR) operation

D. Division method

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q54

Which of the following is a mapped data type?

A. List

B. Sets

C. Dictionary

D. Boolean

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q59

Auxiliary storage space management in an operating system involves:

A. Allocating memory for CPU registers

B. Managing input/output operations between processes and devices

C. Managing the allocation of memory to processes

D. Managing the allocation of space on secondary storage devices

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q64

Which technology offers the highest level of customization for implementing digital logic circuits?

A. ROM-based design

B. PLA-based design

C. FPGA-based design

D. Gate Array-based design

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q91

Convert the Boolean function F(A, B, C) = Σ(0, 1, 3, 5) to its simplified SOP form.

A. A + B + C

B. A'B + AC

C. A + B + C'

D. A'B'C

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q2

Convert the Boolean function F(A, B, C) = Π(0, 2, 4, 5, 7) to its simplified POS form

A. A + B + C

B. A + B' + C

C. A'B'C'

D. (A + B)(A + C')(B + C)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q67

Given the Boolean expression F(A, B, C, D) = Σ(0, 1, 2, 3, 8, 9, 10, 11), what is the simplified expression using the algebraic method?

A. A + B + C + D

B. AB + AC + AD + BC + BD + CD

C. AB + CD

D. A'BC'D + ABC'D + A'BCD + ABCD

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q75

In a PLA, what components are used to implement the combinational logic functions?

A. AND gates and OR gates

B. NAND gates and XOR gates

C. NOR gates and XNOR gates

D. NOT gates and multiplexers

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q91

Which type of register is primarily used to temporarily hold data during arithmetic and logical operations in a microprocessor?

A. Shift register

B. Parallel register

C. Accumulator register

D. Counter register

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

Computer Architecture & Organization

2023 | 12 Sep 2023 | Shift 1 | Q11

Question 11 Question Id : 46
Which component of an ideal microcomputer is responsible for temporarily holding data and instructions during processing?

A. CPU
46001

B. ALU
46002

C. Memory
46003

D. Output devices
46004

Correct option (as printed in source): C. Memory
46003

2024 | 12 Jun 2024 | Shift 2 | Q404

The five domain taxonomy of instructional objective was proposed by

[redacted]
?

A. Anderson & Krathwohl

B. Mc Cormack and Yager

C. Jerome S. Bruner

D. Benjamin S. Bloom

Correct option (as printed in source): D. Benjamin S. Bloom

2025 | 03 Nov 2025 | Shift 1 | Q22

In an ideal microcomputer, where is the Arithmetic Logic Unit (ALU) located?

A. CPU

B. Memory

C. Input devices

D. Output devices

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q34

What is the primary role of the memory-mapped I/O technique in a microcontroller?

A. It increases the speed of program execution

B. It provides additional memory space for data storage

C. It allows external devices to access the microcontroller's memory

D. It eliminates the need for I/O operations

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q58

Program Analysis Tools are used for:

A. Designing software architecture

B. Measuring software reliability

C. Automatically generating test cases

D. Analysing code for errors and performance bottlenecks

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q92

Which addressing mode involves specifying a value within the instruction itself, rather than referencing a memory location?

A. Direct addressing

B. Immediate addressing

C. Indirect addressing

D. Indexed addressing

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q88

ZigBee architecture has _____layers?

A. 4

B. 5

C. 6

D. 7

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q99

In which year did Intel release the first x86 microprocessor, the 8086, which laid the foundation for the x86 architecture widely used in personal computers?

A. 1971

B. 1981

C. 1986

D. 1991

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q21

Which of the following applications is a typical use of microcontrollers in the field of home automation?

A. Satellite communication

B. Air traffic control

C. Temperature and lighting control

D. Space exploration

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q57

What does the term "harvard architecture" refer to in the context of microcontrollers?

A. A type of microcontroller with high processing speed

B. A microcontroller architecture that uses a separate memory space for instructions and data

C. A microcontroller with advanced addressing modes

D. A microcontroller with a large number of I/O ports

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

Data Structures & Algorithms

2023 | 12 Sep 2023 | Shift 1 | Q14

Question 14 Question Id : 43
Which data structure often results in a time-space tradeoff by using extra memory to speed up operations?

A. Arrays
43001

B. Linked lists
43002

C. Hash tables
43003

D. Stacks
43004

Correct option (as printed in source): C. Hash tables
43003

2023 | 12 Sep 2023 | Shift 1 | Q15

Question 15 Question Id : 42
Which term refers to the strategy of optimizing an algorithm's use of resources, often by making sacrifices in one aspect for improvements in another?

A. Greedy algorithm
42001

B. Divide and conquer
42002

C. Dynamic programming
42003

D. Tradeoff
42004

Correct option (as printed in source): D. Tradeoff
42004

2023 | 12 Sep 2023 | Shift 1 | Q16

Question 16 Question Id : 41
Conditional asymptotic notation allows for a more nuanced analysis of algorithm behavior under specific conditions. This is particularly useful when:

A. Analyzing algorithms with constant time complexity
41001

B. The input size is fixed
41002

C. The input data is random
41003

D. Algorithm behavior varies based on certain input characteristics
41004

Correct option (as printed in source): D. Algorithm behavior varies based on certain input characteristics
41004

2023 | 12 Sep 2023 | Shift 1 | Q17

Question 17 Question Id : 56
.If an algorithm's behavior is bounded by "o(f(n)) if g(n)", what notation does it become when the condition is removed?

A. o(f(n))
56001

B. o(g(n))
56002

C. o(f(n) + g(n))
56003

D. o(f(n) * g(n))
56004

Correct option (as printed in source): A. o(f(n))
56001

2023 | 12 Sep 2023 | Shift 1 | Q18

Question 18 Question Id : 57
The recurrence equation T(n) = T(n/2) + 1 represents the time complexity of which algorithmic paradigm?

A. Divide and Conquer
57001

B. Greedy Algorithms
57002

C. Dynamic Programming
57003

D. Brute Force
57004

Correct option (as printed in source): A. Divide and Conquer
57001

2023 | 12 Sep 2023 | Shift 1 | Q19

Question 19 Question Id : 58
Divide and Conquer is an algorithmic paradigm that solves problems by:

A. Iteratively solving subproblems
58001

B. Recursively solving subproblems
58002

C. Using heuristics to find solutions
58003

D. Greedily combining solutions
58004

Correct option (as printed in source): B. Recursively solving subproblems
58002

2023 | 12 Sep 2023 | Shift 1 | Q20

Question 20 Question Id : 67
A threaded binary tree is a binary tree in which:

A. Each node has two children
67001

B. Each node has at most one child
67002

C. Each node is connected to its parent
67003

D. Each node has a thread connecting it to its predecessor or successor
67004

Correct option (as printed in source): D. Each node has a thread connecting it to its predecessor or successor
67004

2023 | 12 Sep 2023 | Shift 1 | Q21

Question 21 Question Id : 73
Which traversal algorithm is typically implemented using a stack data structure?

A. DFS
73001

B. BFS
73002

C. Both DFS and BFS
73003

D. Neither DFS nor BFS
73004

Correct option (as printed in source): A. DFS
73001

2023 | 12 Sep 2023 | Shift 1 | Q22

Question 22 Question Id : 72
In a directed graph, an edge that points from vertex A to vertex B is denoted as:

A. (A, B)
72001

B. [A, B]
72002

C. <A, B>
72003

D. {A, B}
72004

Correct option (as printed in source): A. (A, B)
72001

2023 | 12 Sep 2023 | Shift 1 | Q23

Question 23 Question Id : 71
Separate chaining involves storing collided elements in separate data structures, typically in:

A. Linked lists
71001

B. Arrays
71002

C. Stacks
71003

D. Queues
71004

Correct option (as printed in source): A. Linked lists
71001

2023 | 12 Sep 2023 | Shift 1 | Q24

Question 24 Question Id : 70
Which collision resolution technique involves placing collided elements in the next available empty slot in the hash table?

A. Linear probing
70001

B. Quadratic probing
70002

C. Separate chaining
70003

D. Double hashing
70004

Correct option (as printed in source): A. Linear probing
70001

2023 | 12 Sep 2023 | Shift 1 | Q26

Question 26 Question Id : 68
The process of removing recursion involves replacing recursive function calls with:

A. More recursive function calls
68001

B. Loops
68002

C. Additional memory allocation
68003

D. Non-recursive function calls
68004

Correct option (as printed in source): B. Loops
68002

2023 | 12 Sep 2023 | Shift 1 | Q35

Question 35 Question Id : 40
Which of the following is correct according to the technology deployed by DBMS?

A. Pointers are used to maintain transactional integrity and consistency
40001

B. Cursors are used to maintain transactional integrity and consistency
40002

C. Locks are used to maintain transactional integrity and consistency
40003

D. Triggers are used to maintain transactional integrity and consistency
40004

Correct option (as printed in source): C. Locks are used to maintain transactional integrity and consistency
40003

2023 | 12 Sep 2023 | Shift 1 | Q36

Question 36 Question Id : 39
The term "NTFS" refers to which one of the following?

A. New Technology File System
39001

B. New Tree File System
39002

C. New Table type File System
39003

D. Both A and C
39004

Correct option (as printed in source): A. New Technology File System
39001

2023 | 12 Sep 2023 | Shift 1 | Q39

Question 39 Question Id : 17
The term "FAT" is stands for_____

A. File Allocation Tree
17001

B. File Allocation Table
17002

C. File Allocation Graph
17003

D. All of the above
17004

Correct option (as printed in source): B. File Allocation Table
17002

2023 | 12 Sep 2023 | Shift 1 | Q53

Question 53 Question Id : 3
Which metric is used for estimating the size of a software project?

A. Cyclomatic Complexity
3001

B. Function Points (FP)
3002

C. Defect Density
3003

D. Software Reliability Index
3004

Correct option (as printed in source): B. Function Points (FP)
3002

2023 | 12 Sep 2023 | Shift 1 | Q64

Question 64 Question Id : 30
Which library simplifies JavaScript tasks like HTML document traversal and manipulation?

A. JavaFX
30001

B. Bootstrap
30002

C. React
30003

D. jQuery
30004

Correct option (as printed in source): D. jQuery
30004

2023 | 12 Sep 2023 | Shift 1 | Q66

Question 66 Question Id : 28
How does the DOM tree structure reflect the hierarchy of HTML elements?

A. In alphabetical order
28001

B. Based on the element's size
28002

C. In a parent-child relationship
28003

D. According to the element's color
28004

Correct option (as printed in source): C. In a parent-child relationship
28003

2023 | 12 Sep 2023 | Shift 1 | Q83

Question 83 Question Id : 98
The algorithm used in the Game tree to make decisions of Win/Lose is _____?

A. Heuristic Search Algorithm
98001

B. DFS/ BFL algorithm
98002

C. Greedy Search algorithm
98003

D. Min/Max algorithm
98004

Correct option (as printed in source): D. Min/Max algorithm
98004

2024 | 12 Jun 2024 | Shift 2 | Q314

Conditional asymptotic notation allows for a more nuanced analysis of algorithm behavior under specific conditions. This is particularly useful when:

[illegible]:

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

- **A.** Analyzing algorithms with constant time complexity
- **B.** The input size is fixed
- **C.** The input data is random
- **D.** Algorithm behavior varies based on certain input characteristics

Correct option (as printed in source): D. Algorithm behavior varies based on certain input characteristics

2024 | 12 Jun 2024 | Shift 2 | Q315

Conditional asymptotic notation is used to analyze an algorithm's behavior under specific conditions. When removing the condition from "O(f(n)) if g(n)", what notation is obtained?

[illegible] "O (f (n)) [illegible] g (n)", [illegible]?

- **A.** O(f(n))
- **B.** O(g(n))
- **C.** O(f(n) + g(n))
- **D.** O(f(n) * g(n))

Correct option (as printed in source): A. O(f(n))

2024 | 12 Jun 2024 | Shift 2 | Q316

When analyzing the time complexity of an algorithm using Big-O notation, what property allows us to ignore lower-order terms?

[illegible]?

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODEw… 8/75

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

- **A.** Reflexivity
- **B.** Addition
- **C.** Multiplication
- **D.** Ignorability of Constants

Correct option (as printed in source): D. Ignorability of Constants

2024 | 12 Jun 2024 | Shift 2 | Q317

The recurrence equation T(n) = 2T(n/2) + n represents the time complexity of which algorithmic paradigm? Using the Master Theorem, what would be the value of "a," "b," and "f(n)" in the theorem?

[illegible] t (n) = 2T (n/2) + n [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]?
[illegible] [illegible] [illegible] [illegible] [illegible] [illegible], [illegible] [illegible] "[illegible]," "[illegible]," [illegible] "[illegible] ([illegible])" [illegible] [illegible] [illegible] [illegible] [illegible]?

A. Divide and Conquer; a = 2, b = 2, f(n) = n

B. Greedy Algorithms; a = 2, b = 2, f(n) = n

C. Dynamic Programming; a = 2, b = 2, f(n) = n

D. Brute Force; a = 2, b = 2, f(n) = n

Correct option (as printed in source): A. Divide and Conquer; a = 2, b = 2, f(n) = n

2024 | 12 Jun 2024 | Shift 2 | Q318

What is the worst-case time complexity of the linear search algorithm for an array of size "n"?

[illegible] "[illegible]" [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

2024 | 12 Jun 2024 | Shift 2 | Q321

In an extended binary tree, internal nodes represent:

[illegible]:

A. Leaf nodes

B. Arithmetic operators

C. Operands

D. Numbers

Correct option (as printed in source): B. Arithmetic operators

2024 | 12 Jun 2024 | Shift 2 | Q322

In the array representation of a binary tree, if the node at index "i" is not null, its left child will be at index:

[illegible] "i" [illegible]:

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

- **A.** FCFS
- **B.** SJN
- **C.** Multilevel Queue Scheduling
- **D.** First-Come, First-Served (FCFS)

Correct option (as printed in source): C. Multilevel Queue Scheduling

2024 | 12 Jun 2024 | Shift 2 | Q382

The algorithm used in the Game tree to make decisions of Win/Lose is _____?

[illegible]

A. Heuristic Search Algorithm

B. DFS/ BFL algorithm

C. Greedy Search algorithm

D. Min/Max algorithm

Correct option (as printed in source): D. Min/Max algorithm

2025 | 03 Nov 2025 | Shift 1 | Q3

The term "FAT" is stands for_____

A. File Allocation Tree

B. File Allocation Table

C. File Allocation Graph

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q21

……..data type is used to implement Queue data structure in Python.

A. Sets

B. Dictionary

C. Tuple

D. List

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q29

The “Turing Machine” showed that you could use a/an _____ system to program any algorithmic task.

A. binary

B. electro-chemical

C. recursive

D. semantic

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q33

Which among the following search algorithm requires least memory?

A. Optimal Search

B. Linear Search

C. DFS

D. BFS

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q40

_____ is two dimensional data structure in Python with row index and column index.

A. DataFrame

B. List

C. Tuple

D. Series

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q43

A photograph is an analog image and a ___ can convert it into a digital image.

A. Printer

B. Scanner

C. Webcam

D. Camera

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q44

A problem is said to be in NP if:

A. Its solution can be verified in polynomial time

B. It can be solved using a non-deterministic algorithm

C. It is not solvable

D. It has exponential complexity

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q61

For a 2-D array represented in row-major order, the index formula to access the element at row "i" and column "j" using the base address "B" is:

A. Index = B + (i * n + j)

B. Index = B + (j * n + i)

C. Index = B + (i + j)

D. Index = B + (i * m + j)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q66

Where will the Hill Climbing Algorithm terminate?

A. Stopping Criterion met

B. Global Min/Max is achieved

C. No neighbor has higher value

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q78

What is the time complexity of the Divide and Conquer algorithm for finding the maximum and minimum elements in an array of size "n"?

A. O(n)

B. O(log n)

C. O(n log n)

D. O(n^2)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q80

Which property of dynamic programming is particularly useful for solving Optimal Binary Search Tree problems?

A. Optimal substructure

B. Greedy choice property

C. Divide and Conquer

D. Linear programming

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q82

In the context of dynamic programming for solving multistage graph problems, what is memoization used for?

A. Dividing the graph into stages

B. Sorting the vertices in the graph

C. Storing solutions to overlapping subproblems

D. Finding the shortest path

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q85

In the Divide and Conquer algorithm for finding the maximum and minimum elements, how are the results from the left and right subarrays combined?

A. By taking the average of the maximum and minimum values

B. By comparing the maximum of the left and right subarrays and the minimum of the left and right subarrays

C. By adding the maximum of the left subarray to the minimum of the right subarray

D. By multiplying the maximum of the left subarray with the minimum of the right subarray

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q88

Which implementation of a stack requires a fixed amount of memory allocated for a fixed number of elements?

A. Array implementation

B. Linked implementation

C. Dynamic implementation

D. Static implementation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q89

The data structure used to represent the allocation status of main memory is known as:

A. Page table

B. File allocation table

C. Memory map

D. Memory management unit

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q2

In the context of minimum spanning trees, the "cut property" is used to justify the correctness of Prim's algorithm. What does the cut property state?

A. The algorithm always cuts the maximum weight edge.

B. The algorithm always cuts the minimum weight edge.

C. The algorithm always cuts an edge crossing the cut with the minimum weight.

D. The algorithm always cuts an edge crossing the cut with the maximum weight.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q7

The minimum number of edges in a spanning tree of a connected graph with "n" vertices is:

A. n

B. n - 1

C. n + 1

D. n(n-1)/2

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q8

Divide and Conquer is an algorithmic paradigm that solves problems by:

A. Iteratively solving subproblems

B. Recursively solving subproblems

C. Using heuristics to find solutions

D. Greedily combining solutions

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

A blackboard cannot be used for _____.
3

A. Improvement of a paragraph

B. Making reports based on information

C. Show schematic diagrams

D. Summary of relationships between facts

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q21

In the context of recursion, what is the purpose of the "stack" data structure?

A. To store variables and function calls for backtracking

B. To store only variables

C. To store only function calls

D. To store loop counters

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q24

Resource management in IoT can be done by implementing--------

A. Protocols

B. Algorithms

C. Networks

D. Protocols and Algorithms

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q34

Algorithm analysis is primarily concerned with:

A. Determining the best algorithm for a specific problem

B. Measuring the time and space efficiency of an algorithm

C. Creating new algorithms from scratch

D. Solving algorithmic problems using any available approach

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q36

.If an algorithm's behavior is bounded by "o(f(n)) if g(n)", what notation does it become when the condition is removed?

A. o(f(n))

B. o(g(n))

C. o(f(n) + g(n))

D. o(f(n) * g(n))

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q44

Church’s Thesis supports---------

A. Both TM is an general-purpose computer and TM is an algorithm and vice-versa are correct

B. A Turing machine an algorithm and an algorithm as a Turing machine

C. A Turing machine as a general-purpose computer system

D. None of them is correct

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q46

Which type of queue allows insertion and deletion of elements at both the front and rear ends?

A. Circular queue

B. Linear queue

C. Dequeue (Double-ended queue)

D. Priority queue

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q54

The presense of _____ makes a card smart?

A. Memory

B. Money

C. Microchip

D. Message Queue Telemetry Transport

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q58

In a Binary Search Tree (BST), the operation of deleting a node with one child involves:

A. Removing the node and replacing it with its left child

B. Removing the node and replacing it with its right child

C. Removing the node and replacing it with its parent

D. Removing the node and leaving the subtree unaltered

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q66

The Tower of Hanoi problem is a classic example of a problem that can be solved using recursion. How many minimum moves are required to solve the Tower of Hanoi problem with 3 disks?

A. 3

B. 7

C. 15

D. 63

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q75

In an AVL tree, the balance factor of a node is the difference between the heights of its:

A. Left and right subtrees

B. Left subtree and parent

C. Right subtree and parent

D. Left and right children

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q82

In pointer implementation of linked lists, which operation can be performed in constant time (O(1)) when inserting or deleting nodes?

A. Inserting at the beginning

B. Inserting at the end

C. Inserting at a specific position

D. Deleting a specific node

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q97

In the context of software project management, what is LOC an acronym for?

A. Line of Change

B. Level of Complexity

C. Lines of Code

D. List of Components

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

A threaded binary tree is a binary tree in which:
0

A. Each node has two children

B. Each node has at most one child

C. Each node is connected to its parent

D. Each node has a thread connecting it to its predecessor or successor

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

In computer graphics, arrays can be used to store pixel values for images. Which type of array would be suitable for this purpose?

A. 1-D array

B. 2-D array

C. 3-D array

D. 4-D array

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q16

Full form of MQTT is

A. Multi-Queue Telemetry Things

B. Multiple Queueing Telemetry Things

C. Message Queue Telemetry Things

D. Message Queue Telemetry Transport

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q31

Which of the following conversion is not possible (algorithmically)?

A. Regular grammar to context-free grammar

B. Non-deterministic pushdown automata to deterministic pushdown automata

C. Non-deterministic finite state automata to deterministic finite state automata

D. Non deterministic Turing machine to deterministic Turing machine

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q38

Delphi and COCOMO are techniques used for estimating:

A. Software size

B. Software reliability

C. Software complexity

D. Software development cost

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q39

In the Backtracking approach for the 8-Queens problem, once a feasible solution is found, the algorithm:

A. Stops and returns the solution

B. Continues searching for more solutions

C. Iterates through all possibilities

D. Rearranges the queens to optimize the solution

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q49

Which sorting algorithm has a worst-case time complexity of O(n^2) in its basic form?

A. Quick Sort

B. Merge Sort

C. Insertion Sort

D. Counting Sort

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q65

Stack works on the principle of…….

A. Mid Element First

B. First In First Out

C. Last In First Out

D. Last In Last Out

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q71

In Python,……..module need to be imported for implementing Double Ended Queue.

A. counter

B. collections

C. random

D. numpy

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q76

Musa's Basic Model is used for measuring:

A. Software complexity

B. Software reliability

C. Software performance

D. Software size

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q94

Which algorithm can be optimized to meet the timing deadlines and rate requirements of continuous media?

A. Earliest-Deadline-First scheduling

B. SCAN-EDF scheduling

C. Both Earliest-Deadline-First scheduling & SCAN-EDF scheduling

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q4

The Floyd-Warshall algorithm is a popular method for solving the All-Pair Shortest Paths problem. What is the time complexity of the Floyd-Warshall algorithm for a graph with "n" vertices?

A. O(n)

B. O(n log n)

C. O(n^2)

D. O(n^3)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q27

In a B tree of order m, each internal node can have up to __ children.

A. m - 1

B. m

C. 2m - 1

D. 2m

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q33

Segmentation is a memory management technique where memory is divided into segments, with each segment containing:

A. Fixed-sized blocks of memory

B. Different types of data structures

C. Variable-sized blocks of memory

D. Non-contiguous blocks of memory

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q35

Connected components in a graph can be found using which graph traversal algorithm?

A. DFS

B. BFS

C. Both DFS and BFS

D. Neither DFS nor BFS

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q40

In conditional asymptotic notation, "Θ(f(n)) if g(n)" indicates that the algorithm's complexity is both upper and lower bounded by f(n) when:

A. g(n) is a lower bound on f(n)

B. g(n) is an upper bound on f(n)

C. g(n) is true

D. g(n) is false

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q42

In a relational database, what is a primary key?

A. A key used for opening encrypted data

B. A unique identifier for a record in a table @

C. A foreign key from another table

D. An index for sorting data

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q56

The recurrence equation T(n) = T(n/2) + T(n/3) + n represents the time complexity of which algorithmic paradigm?

A. Divide and Conquer

B. Dynamic Programming

C. Greedy Algorithms

D. Backtracking

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q62

A* search algorithm is based on?

A. BFS

B. DFS

C. Uniform cost search

D. Best first Search

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q66

In a threaded binary tree, the space required for threads is usually:

A. Greater than the space required for regular pointers

B. Equal to the space required for regular pointers

C. Less than the space required for regular pointers

D. Unpredictable

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q72

A grammar that produces more than one parse tree for the same sentence is called

A. Contiguous

B. Ambiguous

C. Unambiguous

D. Regular

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q73

Which traversal technique is used to visit each node of a linked list exactly once?

A. Preorder traversal

B. Inorder traversal

C. Postorder traversal

D. Linear traversal

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q89

What is the time complexity of Merge Sort for sorting an array of size "n"?

A. O(n)

B. O(log n)

C. O(n log n)

D. O(n^2)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q96

Separate chaining involves storing collided elements in separate data structures, typically in:

A. Linked lists

B. Arrays

C. Stacks

D. Queues

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

Programming, OOP & Python

2023 | 12 Sep 2023 | Shift 1 | Q34

Question 34 Question Id : 60
What is DBMS?

A. DBMS is a collection of queries
60001

B.) DBMS is a high-level language
60002

C. DBMS is a programming language
60003

D. DBMS stores, modifies and retrieves data
60004

Correct option (as printed in source): D. DBMS stores, modifies and retrieves data
60004

2023 | 12 Sep 2023 | Shift 1 | Q41

Question 41 Question Id : 15
What is the primary function of routing in the network layer?

A. Data framing
15001

B. Error correction
15002

C. Finding the best path for data
15003

D. Flow control
15004

Correct option (as printed in source): C. Finding the best path for data
15003

2023 | 12 Sep 2023 | Shift 1 | Q55

Question 55 Question Id : 2
Which keyword is used to create an instance of a class in most programming languages?

A. alloc
2001

B. new
2002

C. create
2003

D. instance
2004

Correct option (as printed in source): B. new
2002

2023 | 12 Sep 2023 | Shift 1 | Q56

Question 56 Question Id : 19
What is an abstract class in OOP?

A. A class with no methods
19001

B. A class that cannot be instantiated
19002

C. A class that can only have private members
19003

D. A class that cannot have methods with parameters
19004

Correct option (as printed in source): B. A class that cannot be instantiated
19002

2023 | 12 Sep 2023 | Shift 1 | Q57

Question 57 Question Id : 21
What is the purpose of the "super" keyword in Java and other similar languages?

A. It refers to the superclass in inheritance
21001

B. It creates a new object instance
21002

C. It defines a new class
21003

D. It handles exceptions
21004

Correct option (as printed in source): A. It refers to the superclass in inheritance
21001

2023 | 12 Sep 2023 | Shift 1 | Q58

Question 58 Question Id : 36
Which of the following best defines a class?

A. An instance of an object
36001

B. A blueprint for creating objects
36002

C. A variable holding data
36003

D. A function with a return value
36004

Correct option (as printed in source): B. A blueprint for creating objects
36002

2023 | 12 Sep 2023 | Shift 1 | Q59

Question 59 Question Id : 35
Which principle ensures that only essential information is visible to the outside world?

A. Polymorphism
35001

B. Information hiding
35002

C. Encapsulation
35003

D. Abstraction
35004

Correct option (as printed in source): B. Information hiding
35002

2023 | 12 Sep 2023 | Shift 1 | Q60

Question 60 Question Id : 34
What is the main purpose of inheritance in OOP?

A. To create instances of classes
34001

B. To prevent data abstraction
34002

C. To establish a parent-child relationship between classes
34003

D. To define exceptions
34004

Correct option (as printed in source): C. To establish a parent-child relationship between classes
34003

2023 | 12 Sep 2023 | Shift 1 | Q61

Question 61 Question Id : 33
What are abstract methods?

A. Methods that are inaccessible to the outside world
33001

B. Methods that have implementation details
33002

C. Methods without a body, defined in an abstract class
33003

D. Methods that cannot be inherited
33004

Correct option (as printed in source): C. Methods without a body, defined in an abstract class
33003

2023 | 12 Sep 2023 | Shift 1 | Q65

Question 65 Question Id : 29
What does AJAX stand for?

A. Asynchronous JavaScript and XML
29001

B. Automated JavaScript and XHTML
29002

C. Advanced JavaScript and XML
29003

D. Asynchronous JSON and XHTML
29004

Correct option (as printed in source): A. Asynchronous JavaScript and XML
29001

2023 | 12 Sep 2023 | Shift 1 | Q67

Question 67 Question Id : 27
In XML, which attribute is used to uniquely identify an element?

A. id
27001

B. class
27002

C. name
27003

D. tag
27004

Correct option (as printed in source): A. id
27001

2023 | 12 Sep 2023 | Shift 1 | Q74

Question 74 Question Id : 20
The class of CFG is not closed under

A. Concatenation
20001

B. Intersection
20002

C. Union
20003

D. Repeated Concatenation.
20004

Correct option (as printed in source): D. Repeated Concatenation.
20004

2023 | 12 Sep 2023 | Shift 1 | Q82

Question 82 Question Id : 91
Programming language commonly used for AI is___?

A. Lisp
91001

B. Perl
91002

C. Prolog
91003

D. C++
91004

Correct option (as printed in source): B. Perl
91002

2023 | 12 Sep 2023 | Shift 1 | Q85

Question 85 Question Id : 100
The process of removing detail from a given state representation is called _____

A. Extraction
100001

B. Abstraction
100002

C. Data Mining
100003

D. Information Retrieval
100004

Correct option (as printed in source): B. Abstraction
100002

2023 | 12 Sep 2023 | Shift 1 | Q86

Question 86 Question Id : 95
What does a first order predicate logic contain?

A. Predicate and a subject
95001

B. Predicate and a Preposition
95002

C. Subject and an object
95003

D. None of the above
95004

Correct option (as printed in source): A. Predicate and a subject
95001

2023 | 12 Sep 2023 | Shift 1 | Q113

Question 113 Question Id : 130
Which of the following is an example of a question that requires students to reflect on their own thinking?

A. how has your thinking about the use of verbs changed since the beginning of the class ?
130001

B. what is the relationship between nouns and verbs in a sentence?
130002

C. what is the definition of a verb?
130003

D. how do you change a verb to the present tense?
130004

Correct option (as printed in source): A. how has your thinking about the use of verbs changed since the beginning of the class ?
130001

2024 | 12 Jun 2024 | Shift 2 | Q333

The term "race condition" in parallel programming refers to:

[illegible]:

A. A competition between processes to terminate first

B. A competition between processes to access shared resources

C. A situation where a process is stuck in a loop

D. A situation where processes are running sequentially

Correct option (as printed in source): B. A competition between processes to access shared resources

2024 | 12 Jun 2024 | Shift 2 | Q341

What is the primary function of routing in the network layer?

[illegible]?

17/07/2024, 12:51 BIHAR SCHOOL EXAMINATION BOARD

A. Polymorphism

B. Encapsulation

C. Abstraction

D. Derivation

Correct option (as printed in source): D. Derivation

2024 | 12 Jun 2024 | Shift 2 | Q360

What does the term "method overriding" refer to in OOP?

[illegible]?

A. Creating multiple methods with the same name in a class

B. Defining a method in a derived class with the same name as in the base class

C. Reimplementing all methods in a class hierarchy

D. Defining private methods in a class

Correct option (as printed in source): B. Defining a method in a derived class with the same name as in the base class

2024 | 12 Jun 2024 | Shift 2 | Q361

What is the function of a DNS (Domain Name System)?

DNS (Domain Name System) ■■ ■■■■■ ■■■■ ■■?

- **A.** class activities are constructed around a problem
- **B.** students have to take initiatives to enquire and learn
- **C.** students are empowered to take a responsible role in their learning
- **D.** All of these

Correct option (as printed in source): D. All of these

2024 | 12 Jun 2024 | Shift 2 | Q426

If a student mischiefs in the class the teacher has to:

[illegible]:

- **A.** report to the headmaster
- **B.** report to the parents
- **C.** undertake a case study on the student
- **D.** None of these

Correct option (as printed in source): C. undertake a case study on the student

2025 | 03 Nov 2025 | Shift 1 | Q1

What is the main purpose of inheritance in OOP?

- **A.** To create instances of classes
- **B.** To prevent data abstraction
- **C.** To establish a parent-child relationship between classes
- **D.** To define exceptions

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q5

Which principle ensures that only essential information is visible to the outside world?

A. Polymorphism

B. Information hiding

C. Encapsulation

D. Abstraction

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q9

What is the term for the ability of a class to provide different implementations of a method based on the input parameters?

A. Overloading

B. Polymorphism

C. Inheritance

D. Encapsulation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q11

The practice of finding commonalities or fundamental connections across a range of 2 particular circumstances is known as ----------

A. Abstraction

B. Generalization

C. Problem Solving

D. Reasoning

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q11

A child performing well in the class, must be
9

A. praised

B. given reward

C. recognised

D. all of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

Which statement is not true about planning of teaching?
4

A. Teacher should know about content

B. Teacher become aggressive in class

C. Plans ways of providing regular meaningful feedback to students.

D. Decide upon/order textbooks(s), copies of articles, etc. which will be required.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

You have a mixed class of boys and girls. Which method would you adopt to improve
6 co-operation between them?

A. Asking parents to discuss equality

B. Making boys and girls share a bench

C. Setting tasks which have to be done together

D. Talking about equality in lessons

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

A text file song .txt contains the following contents in it:
Life goes on as it never ends
What will be the output of the following code snippet?

```
f1 = open ("song.txt", "r")
s1 = f1. read (5)
s2 = f1. readline (4)
s3 = f1. read (3)
print (s1, s3, sep = "#")
```

A. goes # on

B. Life #goes # on

C. Life # on

D. Error

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

A class VI mathematics teacher posed the following problem to her students:
9 "In a morning walk, three persons started together. Their steps measure 70 cm , 85 cm
and 95 cm respectively. What is the minimum distance each should walk so that all can
cover the same distance in complete steps?"
Which of the following concepts would be required to solve the given problem?

A. Concept of LCM

B. Concept of division

C. Concept of proportion

D. Concept of HCF

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q15

Which programming languages are commonly supported by Dreamweaver for web
development?

A. Python and Ruby

B. HTML and CSS @

C. C++ and Java

D. PHP and MySQL

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q16

What is the purpose of a constructor in OOP?

A. To destroy objects

B. To create instances of abstract classes

C. To initialize object properties

D. To define abstract methods

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q17

What is the main advantage of using abstract classes over interfaces?

A. Abstract classes can have multiple inheritance, unlike interfaces

B. Interfaces can have constructors, while abstract classes cannot

C. Abstract classes can provide default implementations of methods

D. Interfaces allow for private access modifiers, unlike abstract classes

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q28

What is the difference between a website and a web page?

A. A website is a collection of web pages, while a web page is a single document that is displayed on the web.

B. A website is a software program, while a web page is a hardware device.

C. A website is a physical object, while a web page is a logical object.

D. All of the above.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q30

What is the term for a condition that occurs during program execution that disrupts the normal flow of instructions?

A. Abstraction

B. Inheritance

C. Exception

D. Encapsulation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q46

In OOP, what is method overloading?

A. Creating multiple constructors

B. Using multiple inheritance

C. Defining multiple methods with the same name but different parameters

D. Inheriting multiple methods from a parent class

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q59

In OOP, what does the term "method signature" refer to?

A. The name of the method

B. The return type of the method

C. The parameters of the method

D. The combination of method name and parameter types

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q76

What is DBMS?

A. DBMS is a collection of queries

B.) DBMS is a high-level language

C. DBMS is a programming language

D. DBMS stores, modifies and retrieves data

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q86

The class of CFG is not closed under----

A. Concatenation

B. Intersection

C. Union

D. Repeated Concatenation.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q90

What does the DOM represent in web development?

A. Database of Objects and Models

B. Document Oriented Middleware

C. Data Object Model

D. Document Object Model

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q98

Which of the following is the base case for a recursive factorial function?

A. n == 0

B. n == 1

C. n < 0

D. n > 0

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

Which concept allows a class to inherit properties and behaviors from multiple classes?

A. Encapsulation

B. Inheritance

C. Polymorphism

D. Multiple Inheritance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

The use of poems and storytelling to explain concepts in an EVS class helps 0 to……..

A. take care of the language and cultural diversity among learners

B. channelise the energies of the students in the right direction

C. make the lesson enjoyable and interesting

D. promote the ability to imagine and explore the nature of the world at the local and global level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q15

RFID is used for?

A. 3G Connectivity

B. Measuring WiFi strength

C. Providing WiFi Connection

D. Object Identification

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q22

Which aggregate function in SQL displays the number of values in the specified column ignoring the NULL values ?

A. len ( )

B. count ( )

C. number ( )

D. num ( )

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q32

What does a first order predicate logic contain?

A. Predicate and a subject

B. Predicate and a Preposition

C. Subject and an object

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q37

What is encapsulation in OOP?

A. The ability to inherit properties from multiple classes

B. The process of creating objects

C. The bundling of data and methods that operate on the data

D. The use of abstract classes only

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q71

What is the main advantage of using exception handling in programming?

A. It prevents code from running

B. It improves code readability

C. It handles unexpected errors and allows graceful program termination

D. It eliminates the need for classes and objects

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q72

What is the term for creating a new class based on an existing class?

A. Overriding

B. Implementing

C. Inheriting

D. Overloading

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q73

In OOP, which term refers to a mechanism by which a class can inherit properties and behaviors from another class?

A. Polymorphism

B. Abstraction

C. Encapsulation

D. Inheritance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q80

What is the primary purpose of an interface in OOP?

A. To provide a blueprint for creating objects

B. To define a set of methods that must be implemented by implementing classes

C. To define constructors for classes

D. To create static methods

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q89

Which programming language is often used for server-side web development?

A. HTML

B. CSS

C. JavaScript

D. PHP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q95

What is the purpose of a destructor in OOP?

A. To create instances of classes

B. To handle exceptions

C. To free up resources when an object is destroyed

D. To define default values for properties

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q98

Which concept allows a subclass to provide a specific implementation of a method that is already defined in the superclass?

A. Overloading

B. Inheritance

C. Polymorphism

D. Overriding

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q1

Which type of method does not have an implementation in the base class and must be overridden by derived classes?

A. Virtual method

B. Abstract method

C. Sealed method

D. Static method

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q8

What is an entity in DTD?

A. A reference to an external resource

B. A mathematical equation

C. A special XML tag

D. A function in JavaScript

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

A teacher should employ classroom management strategies which focus on:
4

A. controlling the class through rigid rules

B. expecting same behaviour from all children

C. making students abide to all rules without questioning

D. giving ample opportunities for self reflection

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

When a teacher should present a video clip in the class?
1

A. During explaining the content

B. After explaining the content

C. Before explaining the content

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

The hypothesis underlying team teaching is
5

A. Teachers feel bore while working alone

B. Teachers are not competent

C. The best teachers in schools are shared by more students

D. The single teacher cannot control the class

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

What is the best way for a teacher to resolve the problems in a class?
9

A. Ask for other teacher's opinion

B. Depends on one's own opinion

C. Think on suggestions offered by the children and implement the good ones

D. Use the view that Principal gives

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

Which of the following refers to the level of data abstraction that describes exactly how the data actually stored?

A. Conceptual Level

B. Physical Level

C. File Level

D. Logical Level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q17

What is the term for defining multiple methods in a class with the same name but different parameters?

A. Overriding

B. Overloading

C. Inheriting

D. Inheritance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q25

Which programming paradigm focuses on breaking down a program into smaller procedures or functions?

A. Object-Oriented Programming

B. Procedural Programming

C. Functional Programming

D. Imperative Programming

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q34

How can you make an asynchronous request to a server in JavaScript?

A. Using the "async" keyword

B. Using the "await" keyword

C. Using the fetch API or XMLHttpRequest

D. By defining a callback function

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q43

In XML, which attribute is used to uniquely identify an element?

A. id

B. class

C. name

D. tag

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q45

Which keyword is used to indicate that a class cannot be inherited by other classes?

A. sealed

B. final

C. private

D. static

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q52

Which of the following refers to the level of data abstraction that describes exactly how the data stored?

A. Conceptual Level

B. Physical Level

C. File Level

D. Logical Level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q53

Which function should be used to get first n rows of a dataframe ?

A. print(n)

B. head(n)

C. get(n)

D. call(n)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q70

What are the three main types of DBMSs?

A. Relational DBMSs, hierarchical DBMSs, and network DBMSs.

B. Relational DBMSs, object-oriented DBMSs, and NoSQL DBMSs.

C. Hierarchical DBMSs, network DBMSs, and object-oriented DBMSs.

D. NoSQL DBMSs, object-oriented DBMSs, and relational DBMSs.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q82

Assertion (A) and Reason (R) based questions. Mark the correct choice as:
Assertion (A) : Every object in Python is assigned a unique identity (ID).
Reason (R) : ID remains the same for the lifetime of that object.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of the Assertion (A).

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of the Assertion (A).

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q83

What is the primary purpose of Software Requirements Specification (SRS) documents?

A. To list the programming languages used

B. To describe the user interface design

C. To define the software's functional and non-functional requirements

D. To specify the hardware components required

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q1

If a robot is able to change its own trajectory as per the external conditions, then the robot is considered as the_

A. Intelligent

B. Open loop

C. Mobile

D. Non-servo

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q3

Which keyword is used to define an abstract method within an abstract class?

A. abstract

B. virtual

C. override

D. implement

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

Which of the following is a sign of motivated teaching?
8

A. Maximum presence of students in the class

B. Asking questions by students

C. Pin drop silence in the class

D. Complition of home assignment

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

Which one of the following is the duty of a class teacher?
4

A. Check the books, exercise books and bages of the students suddenly

B. Check the lunch boxes of the students and advise them to take healthy food

C. Check cleanliness of the class

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

To select subject matter, one should consider student's:
6

A. I.Q

B. Class

C. Health

D. Physical age

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

How can you establish a connection between PHP and MySQL?

A. Using the "connect()" function in PHP

B. By including a PHP library

C. By embedding MySQL queries directly in PHP code

D. By using the "mysqli_connect()" function in PHP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

Which one of the following is the most suitable to improve children's learning?
0

A. Regular assessment test should be conducted.

B. Teacher should explain the content using different examples and illustrations.

C. All types of learning material should be there in the class.

D. Teacher should facilitate children to interact with each other on real-life situations.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q24

What is the term for a variable that references an instance of a class?

A. Property

B. Method

C. Object

D. Constructor

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q31

Which term is used to describe the ability of different classes to be treated as objects of the same parent class?

A. Overloading

B. Polymorphism

C. Abstraction

D. Encapsulation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q44

Which JavaScript method is used to add a new HTML element to the DOM?

A. appendElement()

B. createElement()

C. newElement()

D. addElement()

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q45

The primary function of firewall in network security is

A. To monitor network traffic and detect anomalies.

B. To create virtual private networks for secure communication.

C. To filter incoming and outgoing network traffic based on security rules

D. To encrypt data before Transmission.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q47

What is the difference between a URL and a web address?

A. A URL is a Uniform Resource Locator, while a web address is away to identify a website on the internet.

B. A URL is a software program, while a web address is ahardware device.

C. A URL is a physical object, while a web address is a logicalobject.

D. All of the above.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q87

Which keyword is used to create an instance of a class in most programming languages?

- **A.** alloc
- **B.** new
- **C.** create
- **D.** instance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

DBMS & SQL

2024 | 12 Jun 2024 | Shift 2 | Q336

Which one of the following commands is used to restore the database to the last committed state?

[illegible]?

- **A.** Savepoint
- **B.** Rollback
- **C.** Commit
- **D.** Both "Savepoint" & "Rollback"

Correct option (as printed in source): B. Rollback

2024 | 12 Jun 2024 | Shift 2 | Q338

Which one of the following commands is used for removing (or deleting) a relation forms the SQL database?

SQL [illegible]?

- **A.** Delete
- **B.** Drop
- **C.** Remove
- **D.** All of these

Correct option (as printed in source): B. Drop

2024 | 12 Jun 2024 | Shift 2 | Q339

Database Management System is a type of _____software

[illegible] _____software

https://btet.sifyreg.com/bsebregjan24/ccgsc_jul24/process.php?appid=f8e956e82ecaab8a7cdf91da5c83c19c&q=NmUyYWQ0YTY4YzY4ODE… 19/75

- **B.** CHANGE
- **C.** UPDATE
- **D.** MODIFY

Correct option (as printed in source): C. UPDATE

2024 | 12 Jun 2024 | Shift 2 | Q380

The default value of the transaction identifier in a Modbus TCP packet is?

■■ ■■■■■ ■■■■■■ ■■■■■ ■ ■■■■ ■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■ ■■?

A. 0

B. 1

C. 2

D. 3

Correct option (as printed in source): B. 1

2024 | 12 Jun 2024 | Shift 2 | Q390

During E■commerce transaction we should ensure■■■■■■■■■■■■■■■

■ - ■■■■■■■ ■■■■■■■ ■■ ■■■■■■ ■■■■■ - - - - - - - - - - - - - ■■■■■■■■■■ ■■■■■ ■■■■■■

A. Integrity

B. Confidentiality

C. Security

D. All of these

Correct option (as printed in source): D. All of these

2025 | 03 Nov 2025 | Shift 1 | Q4

What is CRUD an acronym for in database operations?

A. Create, Read, Update, Delete

B. Cache, Read, Update, Delete

C. Copy, Replace, Update, Delete

D. Collect, Read, Use, Discard

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q20

Ginni has created a table, SCORES in MySQL to store runs scored by players in a
cricket match. The table contains the following records:
Table : Scores
PLAYER SCORE
Ranveer 50
Sukesh 35
Mirza 10
John 51
Murugan 70
Which of the following statements will give 10 as output?

A. SELECT MAX (Score) FROM Scores;

B. SELECT MIN (Score) FROM Scores;

C. SELECT SUM (Score) FROM Scores;

D. SELECT AVG (Score) FROM Scores;

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q25

SQL applies conditions on the groups through……clause after groups have been formed.

A. where

B. having

C. new

D. all

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q57

_____ offers the ability to query the data and insert, alter, and delete tuples.

A. Transaction Control Language (TCL)

B. Data Control Language (DCL)

C. Data Definition Language (DDL)

D. Data Manipulation Language (DML)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q64

Which of the following is not a Web Service ?

A. Using Diksha learning portal

B. Sending and receiving email

C. File transfer over Bluetooth

D. Using a banking portal for online transaction

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q65

What is a NoSQL database?

A. A NoSQL database is a database that does not use the relational model.

B. A No SQL database is a database that is not managed by a DBMS.

C. A No SQL database is a database that is not stored on a physical device.

D. All of the above.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q84

The default value of the transaction identifier in a Modbus TCP packet is?

A. 0

B. 1

C. 2

D. 3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q96

Which of the following provides the ability to query information from the database and insert tuples into, delete tuples from, and modify tuples in the database?

A. DML (Data Manipulation Language)

B. DDL (Data Definition Language)

C. Query

D. Relational Schema

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q12

What is the default format of data in MySQL?

A. DD-MM-YYYY

B. MM-DD-YYYY

C. YYYY-MM-DD

D. YYYY-DD-MM

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q25

Which of the following is not a valid relational operator used with WHERE clause in SQL?

A. >

B. <=

C. =>

D. <>

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q38

Which of the following programming medium is used by MobileMe to create the appearance of desktop application inside a browser?

A. HTML

B. DHTML

C. Jquery

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q39

Which SQL statement is used to update data in a database?

A. ALTER

B. CHANGE

C. UPDATE

D. MODIFY

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q55

Which of the following is a database?

A. MySQL

B. Informix

C. SQL Server

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q56

The ability to query data, as well as insert, delete, and alter tuples, is offered by

_____

A. TCL (Transaction Control Language)

B. DCL (Data Control Language)

C. DDL (Data Definition Langauge)

D. DML (Data Manipulation Langauge)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q60

Questions given below is Assertion (A) and Reason (R) based questions. Mark the correct choice as :
Assertion (A) : We can retrieve records from more than one table in MYSQL.
Reason (R) :Foreign key is used to establish a relationship between two tables.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation for Assertion (A).

B. Both Assertion (A) and Reason (R) are true and Reason (R) is not the correct explanation for Assertion (A).

C. Assertion (A) is true but, Reason (R) is false.

D. Assertion (A) is false but, Reason (R) is true .

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q81

An index is clustered, if

A. it is on a set of fields that form a candidate key.

B. it is on a set of fields that include the primary key.

C. the data records of the file are organized in the same order as the data entries of the index.

D. the data records of the file are organized not in the same order as the data entries of the index.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q90

What does Structured Analysis focus on?

A. Hardware components

B. Database management

C. Data flow and processes

D. User interfaces

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q91

Questions given below is of Assertion and Reason type question. This question consists of two statements, namely, Assertion (A) and Reason (R). Select the most suitable option considering the Assertion and Reason. Assertion (A) : When you enter a query into a search engine, it retrieves and presents a list of web pages, documents, images, videos, or other types of content that are relevant to your search. Reason (R) : The goal of information retrieval is to effectively and efficiently find and present information that matches the user's search criteria.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q2

Which of the following is a DML command in SQL ?

A. UPDATE

B. CREATE

C. ALTER

D. DROP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q6

What does SQL stand for?

A. Structured Query Language

B. Simple Query Language

C. Systematic Query Logic

D. Standard Query Level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

All except ---------- are major components of classroom process.
7

A. Evaluating teacher’s performance

B. Assessment of student’s learning

C. Expected learning outcomes

D. Classroom transaction

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

In general, a file is basically a collection of all related_____.

A. Rows & Columns

B. Database

C. Fields

D. Records

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q67

How are cookies typically stored on a client's device?

A. In a plain text file

B. In a database

C. In an encrypted format

D. In the browser's cache

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q74

Which statement is used to retrieve data from a database in SQL?

A. SELECT

B. UPDATE

C. DELETE

D. INSERT

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q86

In MYSQL, which type of value should not be enclosed within quotation marks ?

A. DATE

B. VARCHAR

C. FLOAT

D. CHAR

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q8

To which of the following the term "DBA" referred?

A. Data Bank Administrator

B. Database Administrator

C. Data Administrator

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q15

The SQL keyword…….is used with wildcards.

A. LIKE

B. IN

C. NOT IN

D. DISTINCT

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q22

What is the purpose of SQL injection attacks?

A. To increase the performance of database queries

B. To bypass authentication systems

C. To improve database security

D. To enhance data encryption

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q39

Which SQL clause is used to retrieve specific rows from a table?

A. SEARCH

B. FETCH

C. SELECT

D. FIND

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q54

Which command is used to remove a relation from an SQL?

A. Drop table

B. Delete

C. Purge

D. Remove

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q69

Which of the following expression in SQL would calculate the square root of 16?

A. POWER (16,2)

B. POWER (16, 0.5)

C. POWER (16, 1)

D. MOD (16)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q70

A relation in a relational database is also known as:

A. A data type

B. An attribute

C. A schema

D. A table

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q71

A Database Management System is a type of _____software.

A. It is a type of system software

B. It is a kind of application software

C. It is a kind of general software

D. Both A and C

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

Operating Systems

2023 | 12 Sep 2023 | Shift 1 | Q13

Question 13 Question Id : 44
Microcontrollers find application in various fields. What is a typical application of microcontrollers in the automotive industry?

A. Operating systems for computers
44001

B. Entertainment systems in airplanes
44002

C. Engine control in cars
44003

D. Weather forecasting systems
44004

Correct option (as printed in source): C. Engine control in cars
44003

2023 | 12 Sep 2023 | Shift 1 | Q27

Question 27 Question Id : 66
A formal model of protection in an operating system provides:

A. A mathematical framework for analyzing resource allocation
66001

B. Guidelines for designing user interfaces
66002

C. Methods for optimizing memory management
66003

D. Techniques for improving CPU utilization
66004

Correct option (as printed in source): A. A mathematical framework for analyzing resource allocation
66001

2023 | 12 Sep 2023 | Shift 1 | Q28

Question 28 Question Id : 59
In an operating system, a "buffer cache" is used to:

A. Store files in memory
59001

B. Store copies of frequently used files in memory
59002

C. Store the operating system kernel
59003

D. Store input/output devices
59004

Correct option (as printed in source): B. Store copies of frequently used files in memory
59002

2023 | 12 Sep 2023 | Shift 1 | Q30

Question 30 Question Id : 64
The I/O subsystem in an operating system is responsible for:

A. Allocating memory for processes
64001

B. Managing the file system
64002

C. Managing input/output operations between processes and input/output devices
64003

D. Allocating CPU time to processes
64004

Correct option (as printed in source): C. Managing input/output operations between processes and input/output devices
64003

2023 | 12 Sep 2023 | Shift 1 | Q31

Question 31 Question Id : 63
The primary goal of load control is to:

A. Prevent processes from running concurrently
63001

B. Avoid context switching between processes
63002

C. Ensure that CPU time is evenly distributed among processes
63003

D. Maximize the usage of virtual memory
63004

Correct option (as printed in source): C. Ensure that CPU time is evenly distributed among processes
63003

2023 | 12 Sep 2023 | Shift 1 | Q32

Question 32 Question Id : 62
The purpose of a page table in a paging system is to:

A. Store pages of memory
62001

B. Manage input/output operations
62002

C. Translate virtual addresses to physical addresses
62003

D. Store program instructions
62004

Correct option (as printed in source): C. Translate virtual addresses to physical addresses
62003

2023 | 12 Sep 2023 | Shift 1 | Q33

Question 33 Question Id : 61
In multiprogramming with fixed partitions, if a process requires more memory than is available in a partition, it may lead to:

A. Fragmentation
61001

B. Deadlock
61002

C. Priority inversion
61003

D. Starvation
61004

Correct option (as printed in source): A. Fragmentation
61001

2023 | 12 Sep 2023 | Shift 1 | Q42

Question 42 Question Id : 14
What is a socket in the context of process-to-process communication?

A. A hardware device for data transmission
14001

B. A software interface for network communication
14002

C. A type of cable used for high-speed data transmission
14003

D. type of network topology
14004

Correct option (as printed in source): B. A software interface for network communication
14002

2023 | 12 Sep 2023 | Shift 1 | Q89

Question 89 Question Id : 88
What is the process in which a buyer posts its interest in buying a certain quantity of items, and sellers compete for the business by submitting successively
lower bids until there is only one seller left?

A. B2B Marketplace
88001

B. Auction
88002

C. Reverse Auction
88003

D. Intranet
88004

Correct option (as printed in source): C. Reverse Auction
88003

2023 | 12 Sep 2023 | Shift 1 | Q122

Question 122 Question Id : 106
Formative evaluation is conducted

A. After the teaching learning process
106001

B. Before the teaching learning process
106002

C. During the teaching learning process
106003

D. All of the above
106004

Correct option (as printed in source): C. During the teaching learning process
106003

2024 | 12 Jun 2024 | Shift 2 | Q302

What is the key advantage of using EEPROM over EPROM in terms of data erasing
and reprogramming?

[redacted] EPROM [redacted] EEPROM [redacted]?

D. 10 m.

Correct option (as printed in source): D. 10 m.

2025 | 03 Nov 2025 | Shift 1 | Q2

Microcontrollers find application in various fields. What is a typical application of microcontrollers in the automotive industry?

A. Operating systems for computers

B. Entertainment systems in airplanes

C. Engine control in cars

D. Weather forecasting systems

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

The process of selecting units from a population to estimate characteristics of the 2 population is called

A. analyzing

B. inference

C. research

D. sampling

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

Who said "The assignment method is an important step in teaching and learning 6 process"?

A. Douglas

B. Dewey

C. Piaget

D. S Morris

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

Areas/sources of information for psychological foundation are:
2

A. Learning process

B. Teaching method

C. Student characteristics

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q35

Context switching in an operating system refers to the process of:

A. Switching between user and kernel modes

B. Switching between processes to allow multitasking

C. Switching between different file systems

D. Switching between different operating systems

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q48

Which maintenance process model focuses on fixing defects as they are identified?

A. Waterfall Model

B. Corrective Maintenance

C. Perfective Maintenance

D. Adaptive Maintenance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q5

ISO 9000 and SEI CMM are both frameworks related to:

A. Network protocols

B. Software architecture

C. Software quality standards and process improvement

D. Software development languages

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

An ongoing dialogue between the teacher and the student during the learning process
4 is a characteristic of:

A. Formative assessment

B. Summative assessment

C. Diagnostic assessment

D. Norm-referenced assessment

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

In problem solving method, a systematic and orderly process is adopted for carrying
5 out

A. the teaching-learning process

B. data collection

C. evaluation

D. analysis

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Debugging is the process of:

A. Creating new software modules

B. Removing defects from software

C. Analysing software requirements

D. Generating test cases

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q53

The process of acquiring a semaphore and entering a critical section while ensuring mutual exclusion is often called:

A. Wait-free synchronization

B. Lock-free synchronization

C. Critical section synchronization

D. Barrier synchronization

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q63

The I/O subsystem in an operating system is responsible for:

A. Allocating memory for processes

B. Managing the file system

C. Managing input/output operations between processes and input/output devices

D. Allocating CPU time to processes

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q70

_____ is an agreement between the communicating parties on how communication is to proceed over a network.

A. Ethernet

B. Protocol

C. Operating System

D. Antivirus

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q93

The primary goal of load control is to:

A. Prevent processes from running concurrently

B. Avoid context switching between processes

C. Ensure that CPU time is evenly distributed among processes

D. Maximize the usage of virtual memory

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

In Piaget's theory of cognitive development, the form of reasoning at one stage 7 becomes the _____ at the next stage:

A. content.

B. structure.

C. process.

D. dialectical opposite

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q22

The dining philosophers problem is an example of a synchronization problem related to:

A. Process scheduling

B. Mutual exclusion

C. Memory allocation

D. Interrupt handling

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q23

Inter-process communication (IPC) is a mechanism used for:

A. Preventing processes from executing concurrently

B. Allowing processes to run independently without communication

C. Enabling processes to exchange information and synchronize their actions

D. Enabling processes to execute in a random order

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q79

Which memory management technique uses fixed-sized blocks of memory, allowing processes to be loaded into any available block?

A. Paging

B. Segmentation

C. Virtual memory

D. Relocation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q92

The main advantage of the overlay technique in memory management is that it allows:

A. Processes to be loaded into memory as a whole

B. Processes to share memory partitions

C. Large programs to be executed on systems with limited memory

D. Processes to communicate directly with each other

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q93

Process-to-process communication involves communication between:

A. Different network layers

B. Different devices on the same network

C. Devices using different protocols

D. Processes on different devices

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q95

A socket is used for:

A. Physical data transmission

B. Process-to-process communication

C. Storing network protocols

D. Network management

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

The goal of synchronization mechanisms in parallel programming is to:

A. Speed up the execution of processes

B. Eliminate parallelism

C. Avoid deadlock situations

D. Increase the number of race conditions

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q18

In an operating system, a "buffer cache" is used to:

A. Store files in memory

B. Store copies of frequently used files in memory

C. Store the operating system kernel

D. Store input/output devices

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q48

Monitors are primarily used for achieving:

A. Deadlocks

B. Starvation

C. Mutual exclusion and synchronization

D. Process termination

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q52

A formal model of protection in an operating system provides:

A. A mathematical framework for analyzing resource allocation

B. Guidelines for designing user interfaces

C. Methods for optimizing memory management

D. Techniques for improving CPU utilization

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q60

The term "multi-user" in an OS context refers to:

A. An OS that can execute multiple programs simultaneously

B. An OS that supports multiple users working on the same machine

C. An OS that can only run on multiple computers

D. An OS with a graphical user interface

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q63

What is the primary purpose of using Don't Care conditions in Karnaugh Map simplification?

A. To mark cells that should not be included in the simplification process

B. To indicate cells that have an undefined logic value

C. To identify cells that are already in their simplest form

D. To mark cells with special logic functions

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q92

Safeguards in an operating system are mechanisms used to:

A. Ensure the efficient utilization of CPU time

B. Prevent data loss during power outages

C. Enhance the performance of I/O operations

D. Protect against unauthorized access and security breaches

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

Computer Networks & Cybersecurity

2023 | 12 Sep 2023 | Shift 1 | Q44

Question 44 Question Id : 12
Which of the following is NOT a network topology?

A. Star
12001

B. Ring
12002

C. Disk
12003

D. Mesh
12004

Correct option (as printed in source): C. Disk
12003

2023 | 12 Sep 2023 | Shift 1 | Q45

Question 45 Question Id : 11
Contention-based MAC protocols are commonly used in:

A. Ethernet networks
11001

B. Token Ring networks
11002

C. ATM networks
11003

D. Point-to-Point networks
11004

Correct option (as printed in source): A. Ethernet networks
11001

2023 | 12 Sep 2023 | Shift 1 | Q47

Question 47 Question Id : 9
What is the purpose of ARP (Address Resolution Protocol)?

A. To assign IP addresses to devices
9001

B. To resolve domain names to IP addresses
9002

C. To map MAC addresses to IP addresses
9003

D. To manage network congestion
9004

Correct option (as printed in source): C. To map MAC addresses to IP addresses
9003

2023 | 12 Sep 2023 | Shift 1 | Q62

Question 62 Question Id : 32
Which protocol is commonly used for sending emails?

A. .HTTPS
32001

B. FTP
32002

C. SMTP
32003

D. TCP
32004

Correct option (as printed in source): C. SMTP
32003

2023 | 12 Sep 2023 | Shift 1 | Q78

Question 78 Question Id : 93
WSN stands for?

A. Wireless Standard Protocol
93001

B. Wireless Sensor Protocol
93002

C. Wireless Serial Protocol
93003

D. Wireless Single Protocol
93004

Correct option (as printed in source): B. Wireless Sensor Protocol
93002

2023 | 12 Sep 2023 | Shift 1 | Q95

Question 95 Question Id : 76
In teardown state of real time streaming protocol is _____

A. the server resources for client
76001

B. server delivers the stream to client
76002

C. server suspends delivery of stream
76003

D. server breaks down the connection
76004

Correct option (as printed in source): D. server breaks down the connection
76004

2024 | 12 Jun 2024 | Shift 2 | Q311

What does the term "microcomputer" generally refer to in the context of computing?

[illegible]?

A. A computer system that is larger than a mainframe

B. A computer system that is small and typically used by a single person

C. A computer system that is used exclusively by large corporations

D. A computer system that is part of a network

Correct option (as printed in source): B. A computer system that is small and typically used by a single person

2024 | 12 Jun 2024 | Shift 2 | Q378

WSN stands for?

WSN ■■ ■■■ ■■■■ ■■?

A. Wireless Standard Protocol

B. Wireless Sensor Protocol

C. Wireless Serial Protocol

D. Wireless Single Protocol

Correct option (as printed in source): B. Wireless Sensor Protocol

2025 | 03 Nov 2025 | Shift 1 | Q6

Contention-based MAC protocols are commonly used in:

A. Ethernet networks

B. Token Ring networks

C. ATM networks

D. Point-to-Point networks

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q7

Stealing someone's intellectual work and representing it as your own is known as
……

A. Fraud

B. Identity Theft

C. Online Stealing

D. Plagiarism

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q8

Even with two-factor authentication, users may still be vulnerable
to_____attacks

A. Scripting

B. Cross attack

C. Man-in-the-middle

D. Radiant

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

A website or online platform where individuals or groups regularly publish written
content, typically in a reverse chronological order is known as :

A. News Group

B. Blog

C. Chat Group

D. Social Networking

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q18

Which of the following networking devices is used to regenerate and transmit the weakened signal ahead ?

A. Hub

B. Ethernet Card

C. Repeater

D. Modern

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q45

The protocol that is used to send e-mails is _____.

A. HTTP

B. POP

C. SMTP

D. FTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q47

Private Key cryptography is also known as ■■■■■■■■■■■■■■■■cryptography.

A. Private key

B. Symetric

C. Asymetric

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q51

What is the expanded form of TCP in TCP/IP ?

A. Transmission Control Protocol

B. Transmission Central Protocol

C. Transfer Control Protocol

D. Transport Central Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q54

The term HTTP stand for:

A. Hyper Terminal Tracing Program

B. Hypertext Tracing Program

C. Hypertext Transfer Protocol

D. Hypertext Tracing Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q63

What is the purpose of ARP (Address Resolution Protocol)?

A. To assign IP addresses to devices

B. To resolve domain names to IP addresses

C. To map MAC addresses to IP addresses

D. To manage network congestion

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q79

Which of the following protocol is used for secure remote login ?

A. FTP

B. HTTPS

C. TELNET

D. HTTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q87

Which of the following is NOT a network topology?

A. Star

B. Ring

C. Disk

D. Mesh

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q95

The Internet of Things (IoT), access to real-time data, and the introduction of cyber-physical systems mark the big changes for this era.

A. Industrial Revolution

B. 3rd Industrial Revolution

C. Industry 4.0

D. Manufacturing automation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q97

Which ZigBee device is used to transfer data between ZigBee devices?

A. Zigbee Coordinator device

B. Zigbee Router

C. Zigbee start devce

D. Zigbee end devce

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

Sangeeta asks her colleague for her project work and then copies the entire work and submits it to her team leader claiming it to be her own work. The act performed by Sangeeta is known as _____ .

A. Phishing

B. Plagiarism

C. Spamming

D. Virus

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

The Kyoto Protocol specifically relates to which one among the following issues?
7

A. Emission reduction

B. Ozone layer depletion

C. Chlorofluorocarbons

D. Biodiversity management

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q20

The "producer-consumer problem" is a classic synchronization problem that involves:

A. Two processes competing for the same resources

B. Two processes exchanging data through shared buffers

C. Two processes competing for CPU time

D. Two processes communicating over a network

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q29

What is a session in web development?

A. A type of HTTP request

B. A way to store data on the client side

C. A temporary storage for user-specific data during a browsing session

D. A method to encrypt data for secure transmission

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q30

Which of the following device provides the necessary translation of data received from network into a format or protocol recognized by devices with the internal network?

A. Bridge

B. Gateway

C. Router

D. Modem

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q35

A web server is _____.

A. A program that downloads files

B. A type of web browser

C. A protocol used for secure communication

D. A computer that stores and delivers web pages

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q40

Which term describes the way devices are interconnected in a network?

A. Topology

B. Bandwidth

C. Encoding

D. Transmission

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q41

Subnetting allows for:

A. Faster data transmission

B. Improved error control

C. Efficient use of IP addresses

D. Increased network security

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q42

This is a Assertion and Reason type questions. This question consists of two statements, namely, Assertion (A) and Reason (R). Select the most suitable option considering the Assertion and Reason.
Assertion (A) : FTP is a networking protocol used for transferring files.Reason (R) : FTP is used when we want to view some data from a website.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A)

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q43

Which one is a communication channel security protocol?

A. SSL

B. SET

C. S-HTTP

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q49

Which HTTP method is used for retrieving data from a server?

A. GET

B. POST

C. PUT

D. DELETE

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q57

Which of the following options is a network protocol that enables secure and encrypted file transfers between a client and a server ?

A. SFTP

B. Telnet

C. SCP

D. HTTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q65

Which of the following is not an e-Reservation portal in India ?

A. https://www.amazon.in

B. https://www.yatra.com

C. https://www.makemytrip.com

D. https://www.irctc.co.in

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q78

Which of the following protocol defines that how the data is formatted and transmitted over the network ?

A. HTTP

B. SMTP

C. FTP

D. POP3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q79

Public key encryption uses multiple keys. One key is used to encrypt data, while another is used to decrypt data. The key used to encrypt data is called the _____ key, while the key used to decrypt data is called the _____ key.

A. Encryption, decryption

B. Encryption, public

C. Public, private

D. Private, public

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q83

Which of the following options is the correct protocol used for phone calls over the internet ?

A. PPP

B. FTP

C. HTTP

D. VoIP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q85

What does the acronym "HTTP" stand for?

A. HyperText Transmission Protocol

B. HyperText Transfer Protocol

C. High-Tech Text Protocol

D. HyperTransfer Text Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q96

What is the main purpose of the Data Link Control in the data link layer?

A. Error correction

B. Data encryption

C. Data routing

D. Data framing

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q99

If you need to transfer money to another person via the internet, which of the following methods could you use?

A. Financial Cybermediary

B. E Bill Presentation and payment

C. E Check

D. Any of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q7

What does the 'https' in a web address indicate ?

A. The website is hosted on a local server

B. The website is a search engine

C. The website uses standard HTTP protocol

D. The website is secure using encryption

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

Which version of IP address is most suitable for IoT?

A. IP V4

B. IP V5

C. IP V6

D. IP V7

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

Frame design in the Data Link Layer includes:

A. Deciding the routing path for data packets

B. Defining the structure of data frames

C. Assigning IP addresses to devices

D. Setting the data transmission rate

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q24

What is the purpose of Domain Name System Server in networking?

A. To encrypt data during transmission.

B. To convert domain names into IP addresses

C. To regulate network traffic flow.

D. To establish a secure connection between devices.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q27

Which Internet Protocol is responsible for mapping IP addresses to MAC addresses?

A. ARP

B. TCP

C. ICMP

D. DNS

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q37

_____ uses packet switching technology to carry voice traffic over an IP network where each packet follows best route to reach its destination.

A. E-mail

B. HTTP

C. VoIP

D. SMTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q41

The term used to describe the maximum amount of data that can be transmitted over a communication channel in a given time period is:

A. Bandwidth

B. Data Rate

C. Latency

D. Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q58

WSN stands for?

A. Wireless Standard Protocol

B. Wireless Sensor Protocol

C. Wireless Serial Protocol

D. Wireless Single Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q75

The popular method of organizing wireless network topologies are?

A. Software

B. Network

C. Synchronization

D. Cluster

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q89

What is the purpose of error control in the Data Link Layer?

A. To prevent unauthorized access

B. To correct errors in the physical layer

C. To ensure reliable data transmission

D. To manage network congestion

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q90

Which of the following devices is essential to set up a wired LAN?

A. Modem

B. NIC

C. Repeater

D. Firewall

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q96

Which one is not an encryption Technique?

A. AES

B. DES

C. RSA

D. FTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Which of the following IP addresses is valid

A. 122.94.96.212

B. 212.254.258.210

C. 210.10.12.156.209

D. 122.294.56.68

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

Full form of SIOP Model is
9

A. Sheltered Intervention Observation Protocol

B. Sheltered Instruction Observation Protocol

C. Sheltered Instruction Objection Protocol

D. Sheltered Intervention Objection Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q19

_____ are the set of rules that governs how data can be transmitted over world wide web.

A. Hyper Text Transfer Protocol

B. Encryption Standards

C. Cyber forensic

D. Digital Certificates

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q25

Which network device serves as the entry and exit point of a network, as all data coming in or going out of a network must first pass through it?

A. Modem

B. Gateway

C. Switch

D. Repeater

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q29

Which of the following statement (s) is/are TRUE in respect of Media Access Control (MAC) Address?
(A) It can be changed if a node is removed from one network and connected to another network.
(B) Each MAC address is a 12-digit hexadecimal number.
(C) It is a unique value associated with a network adapter called NIC.
(D) It is provided by the Internet Service Provider to locate computers connected to the internet.
Choose the correct answer from the options given below:

A. (B) and (C) only

B. (A), (B) and (C) only

C. (C) and (D) only

D. (A) and (B) only

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q37

Hierarchical addressing in the Network Layer allows for:

A. More efficient use of IP addresses

B. Dynamic allocation of MAC addresses

C. Faster data transmission rates

D. Reduced latency in data communication

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q41

The OSI model consists of how many layers?

A. 5

B. 6

C. 7

D. 8

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q50

Which protocol provides connectionless communication with minimal overhead?

A. TCP

B. UDP

C. IP

D. HTTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q61

TPDU (Transport Protocol Data Unit) refers to:

A. A unit of data in the physical layer

B. A unit of data in the data link layer

C. A unit of data in the transport layer

D. A unit of data in the network layer

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q64

Which among the followins is not a type of Zigbee Device?

A. Zigbee Coordinator device

B. Zigbee Router

C. Zigbee start devce

D. Zigbee end devce

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q76

Which protocol is used for sending emails?

A. HTTP

B. FTP

C. SMTP

D. SNMP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q78

Which one of the following resource is not necessarily required on a file server?

A. secondary storage

B. processor

C. network

D. monitor

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q79

The letter S in the abbreviation HTTPS in context of Networking protocols, stands for :

A. Single

B. Static

C. Secure

D. Sensitive

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q83

What is the full form of FTP ?

A. File Transfer Protocol

B. File Transmission Protocol

C. Fast Transfer Protocol

D. Fast Transmission Protocol

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q85

What is an encryption system that uses two keys: a public key that everyone can have
and a private key for only the recipient?

A. Encryption

B. IDS

C. Security Audit software

D. Public key Encryption

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

Theory of Computation & Automata

2023 | 12 Sep 2023 | Shift 1 | Q69

Question 69 Question Id : 25
A Language for which DFA exist is a_____

A. Regular Language
25001

B. Non-Regular Language
25002

C. Any language
25003

D. Cannot be said
25004

Correct option (as printed in source): A. Regular Language
25001

2023 | 12 Sep 2023 | Shift 1 | Q73

Question 73 Question Id : 74
If NFA of 5 states excluding the initial state is converted into DFA, maximum possible number of states for the DFA is?

A. 64
74001

B. 32
74002

C. 128
74003

D. 187
74004

Correct option (as printed in source): A. 64
74001

2023 | 12 Sep 2023 | Shift 1 | Q135

Question 135 Question Id : 145
Visva-Bharati University, which was seen in the news recently, is located in which state?

A. Uttar Pradesh
145001

B. Bihar
145002

C. West Bengal
145003

D. Odisha
145004

Correct option (as printed in source): C. West Bengal
145003

2024 | 12 Jun 2024 | Shift 2 | Q368

A Language for which DFA exist is a_____

■■ ■■■■ ■■■■■ ■■■ DFA ■■■■■ ■■ ■■ ■■ _____ ■■

A. Regular Language

B. Non-Regular Language

C. Any language

D. Cannot be said

Correct option (as printed in source): A. Regular Language

2024 | 12 Jun 2024 | Shift 2 | Q370

Regular expression for all strings starts with b and ends with bba is.

[illegible]

A. aba*b*bba

B. ab(ab)*bba

C. b(a+b)*bba

D. All of the mentioned

Correct option (as printed in source): C. b(a+b)*bba

2024 | 12 Jun 2024 | Shift 2 | Q374

Turing machine can be represented using:

[illegible]:

A. Transition table

B. Transition diagram

C. Instantaneous description

D. All of these

Correct option (as printed in source): D. All of these

2025 | 03 Nov 2025 | Shift 1 | Q10

Drama or role play is most useful for teaching…….
9

A. History

B. Science

C. Maths

D. Language

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Out of 60 people in a colony, 10 speak only Bengali, 5 speak only Assamese, 10 speak
0 both Hindi and Odia, 12 speak both Marathi and Hindi, 13 speak English, Tamil and
Marathi, 5 speak both Assamese and Hindi and the remaining speak both Bengali and
Hindi.
How many people speak more than one language?

A. 15

B. 45

C. 50

D. 55

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q27

A Language for which DFA exist is a_____

A. Regular Language

B. Non-Regular Language

C. Any language

D. Cannot be said

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q42

A PDA chooses the next move based on

A. Current state

B. Next input symbol

C. Both (a) and (b)

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q70

Halting state of Turing machine are:

A. Start and stop

B. Accept and reject

C. Start and reject

D. Reject and allow

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q74

If NFA of 5 states excluding the initial state is converted into DFA, maximum possible number of states for the DFA is?

A. 64

B. 32

C. 128

D. 187

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Which of the following is true for the language: { ap| p is a prime}

A. It is regular but not context-free

B. It is neither regular nor context-free, but accepted by a Turing machine

C. It is not accepted by a Turing Machine

D. It is context-free but not regular

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

In a code language BHOPAL is written as OLOLOL, then what will be RANCHI written in 1 that language?

A. RIRIRI

B. SBODIJ

C. NININI

D. THCNAR

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Which one of the following is the language of the famous political treatise 4 Amuktmalyada?

A. Sanksrit

B. Tamil

C. Kannada

D. Telugu

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q26

Which of the following statement is false?

A. A recursive language is also a regular language

B. A context free language is also a regular language

C. A context free language is also recursive enumerable language

D. Both (a) and (b)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q31

Regular expression for all strings starts with b and ends with bba is.

A. aba*b*bba

B. ab(ab)*bba

C. b(a+b)*bba

D. All of the mentioned

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q48

Can a DFA recognize a palindrome number?

A. Yes

B. No

C. Yes, with input alphabet as Σ^*

D. Can't be determined

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q61

A regular language over an alphabet Σ is closed under following operation(s)

A. Union

B. Concatenation

C. Kleene*

D. All of the mentioned

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

One of the critiques of standardized tests has been that-
6

A. they represent largely the mainstream culture and are therefore biased

B. their language is difficult to understand

C. the tests cannot be administered on large populations

D. they do not give a clear picture of a child's ability

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q44

Which of the following is type 1 language or Type 1 grammar?

A. Regular grammar/ Regular language

B. Context Free Grammar / Context Free language

C. Context Sensitive Grammar / Context Sensitive language

D. Recursively Enumerable

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q46

A universal Turing machine is a--------

A. Single tape Turing machine

B. Two-tape Turing machine

C. Reprogrammable Truing machine

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q57

The minimum number of productions required to produce a language consisting of palindrome strings over $\sum=\{a,b\}$ is

A. 3

B. 7

C. 5

D. 6

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q80

Which of the following is an extension to the basic model of Turing machine:

A. Multi tape Turing machine

B. Multi head Turing machine

C. Nondeterministic Turing machine

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q85

Let the word be “automata”. The total number of states required to recognize the word using DFA would be _____

A. 9 states

B. 8 states

C. 10 states

D. word cannot be recognized using DFA

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q6

Turing machine can be represented using:

A. Transition table

B. Transition diagram

C. Instantaneous description

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q17

What is the difference between a hard disk drive and a solid-state drive?

A. A hard disk drive uses spinning disks to store data, while a solid-state drive uses flash memory to store data.

B. A hard disk drive is slower than a solid-state drive.

C. A hard disk drive is more durable than a solid-state drive.

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q38

According to Chomsky hierarchy, which of the following is recognized by Recursively Enumerable language?

A. Type 0

B. Type 1

C. Type 2

D. Type 3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q84

The language accepted by Push down Automaton:

A. Recursive Language

B. Context free language

C. Linearly Bounded language

D. All of the mentioned

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

Software Engineering

2023 | 12 Sep 2023 | Shift 1 | Q48

Question 48 Question Id : 8
Which software life cycle model allows for iterative development and incorporates risk analysis?

A. Waterfall model
8001

B. Prototype model
8002

C. Spiral model
8003

D. Agile model
8004

Correct option (as printed in source): C. Spiral model
8003

2023 | 12 Sep 2023 | Shift 1 | Q50

Question 50 Question Id : 6
Reverse engineering is primarily used for:

A. Creating new software from scratch
6001

B. Improving software performance
6002

C. Understanding and documenting existing software
6003

D. Testing software components
6004

Correct option (as printed in source): C. Understanding and documenting existing software
6003

2023 | 12 Sep 2023 | Shift 1 | Q51

Question 51 Question Id : 5
Which testing approach involves testing individual components or units of code?

A. Integration Testing
5001

B. System Testing
5002

C. Unit Testing
5003

D. Acceptance Testing
5004

Correct option (as printed in source): C. Unit Testing
5003

2023 | 12 Sep 2023 | Shift 1 | Q52

Question 52 Question Id : 4
What is the main goal of System Testing?

A. Testing individual components in isolation
4001

B. Testing the integration between different software components
4002

C. Testing software functionality from the user's perspective
4003

D. Identifying defects in the source code
4004

Correct option (as printed in source): C. Testing software functionality from the user's perspective
4003

2024 | 12 Jun 2024 | Shift 2 | Q352

What is the main goal of System Testing?

[illegible]?

A. Testing individual components in isolation

B. Testing the integration between different software components

C. Testing software functionality from the user's perspective

D. Identifying defects in the source code

Correct option (as printed in source): C. Testing software functionality from the user's perspective

2025 | 03 Nov 2025 | Shift 1 | Q60

Which testing approach involves testing individual components or units of code?

A. Integration Testing

B. System Testing

C. Unit Testing

D. Acceptance Testing

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

Pedagogy is a
2

A. science of behavior

B. science of learning

C. science of teaching

D. science of testing

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q67

Reverse engineering is primarily used for:

A. Creating new software from scratch

B. Improving software performance

C. Understanding and documenting existing software

D. Testing software components

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

The basic requirement of teaching efficiency is-
3

A. Mastery on teaching skills

B. Mastery over use of different techniques of teaching.

C. Mastery over appropriate use of media and technology in teaching.

D. All the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q28

The Cost Estimation technique that involves expert judgments and consensus is called:

A. COCOMO

B. Delphi Method

C. Waterfall Model

D. Prototype Model

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q62

Software engineering emerged due to:

A. The decline of computer technology

B. The need for complex hardware systems

C. The challenges posed by software development

D. The focus on hardware-only solutions

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q63

Which software life cycle model is based on iterative prototyping?

A. Waterfall model

B. Spiral model

C. Agile model

D. Prototype model

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q55

What does the term "Software Maintenance" refer to?

A. Developing new software applications

B. Enhancing software performance

C. Managing hardware components

D. Modifying and updating existing software

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q68

Which model considers risk assessment and incremental development in software projects?

A. Waterfall Model

B. Agile Model

C. Prototype Model

D. Spiral Model

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

Web Technologies

2023 | 12 Sep 2023 | Shift 1 | Q63

Question 63 Question Id : 31
What does CSS stand for?

A. Cascading Style System
31001

B. Creative Styling Script
31002

C. Computer Style Sheets
31003

D. Cascading Style Sheets
31004

Correct option (as printed in source): D. Cascading Style Sheets
31004

2024 | 12 Jun 2024 | Shift 2 | Q362

What is the primary purpose of XML?

XML ■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■?

A. Creating complex animations

B. Styling web pages

C. Storing and transporting structured data

D. Displaying images

Correct option (as printed in source): C. Storing and transporting structured data

2025 | 03 Nov 2025 | Shift 1 | Q10

Rousseau has given the concept of Follow Nature. The meaning of this maxim is
5

A. to give full freedom to the teacher

B. to regulate the education of a pupil according to his nature

C. the teacher should follow his discretion

D. knowledge should be given according to the teacher’s nature

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

Freedom in education means
7

A. the spirit of opposing the rules of the school regularly

B. the students will do anything they want

C. one's own growth freely and the recognition of others freedom to grow similarly

D. teachers are free to teach as they think

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q24

Which of the following attributes is not a valid attribute of the tag in HTML ?

A. text

B. background

C. bgcolor

D. width

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q32

Which among the following was the first web browser ?

A. Internet Explorer

B. Mosaic

C. Google Chrome

D. Opera

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q49

Which of the following attributes is not a valid attribute of the tag in HTML ?

A. face

B. type

C. size

D. colour

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q94

Which attribute of the tag is used to set the background color of a web page ?

A. text

B. bgcolor

C. background

D. color

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q27

Which tag is used to create a line break in an HTML document ?

A. <lb>

B. <break>

C.

D. <newline>

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q64

The default value for the type attribute of an Unordered List in HTML is :

A. circle

B. disc

C. square

D. triangle

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

Which of the following is more important for keeping the good mental health of
0 students?

A. Provision for curricula activities

B. Freedom of expression

C. Variety of interests

D. Teacher's role and school environment

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

With reference to Indian history, consider the following statements :
1 1.The first Mongol invasion of India happened during the reign of Jalal-ud-din Khalji.
2.During the reign of Ala-ud-din Khalji, one Mongol assault marched up to Delhi and besieged the city.
3. Mubammad-bin-Tughlaq temporarily lost portions of north-west of his kingdom to Mongols
Which of the statements given above is/are correct?

A. 1 and 2

B. 2 only

C. 1 and 3

D. 3 only

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q18

In HTML, we start a comment using :

A. <!- -

B. !- ->

C. - -!>

D. <--!

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q21

Select the correct option to fill in the blank : A _____ is an online platform or website where individuals or businesses regularly publish articles/journals, known as posts, on various topics.

A. Brower

B. Blog

C. News Group

D. Web Server

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q48

This is a Assertion and Reason type questions. This question consists of two statements, namely, Assertion (A) and Reason (R). Select the most suitable option considering the Assertion and Reason. Assertion (A) : CSS is an attribute of the table tag and is used to style tables on a web page. Reason (R) : CSS is used to apply styles, such as fonts, colors, and spacing in an HTML document.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q97

Questions given below is of Assertion and Reason type question. This question consists of two statements, namely, Assertion (A) and Reason (R). Select the most suitable option considering the Assertion and Reason. Assertion (A) : It becomes difficult to update and maintain a website's design using CSS. Reason (R) : CSS allows web developers to separate the presentation layer (styles and layout) from the content layer (HTML).

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

Artificial Intelligence, Robotics & Emerging Tech

2023 | 12 Sep 2023 | Shift 1 | Q75

Question 75 Question Id : 75
Which among the following is not true about IoT?

A. IoT uses Micro Controllers
75001

B. IoT is fully safe
75002

C. IoT uses Sensors and Actuators
75003

D. IoT uses wireless technology
75004

Correct option (as printed in source): B. IoT is fully safe
75002

2023 | 12 Sep 2023 | Shift 1 | Q76

Question 76 Question Id : 78
About IoT, which among the followings isnot correct?

A. Light sensor is analog
78001

B. microphone is a digital sensor
78002

C. Keyboard is a digital sensor
78003

D. Push button is a digital Sensor
78004

Correct option (as printed in source): B. microphone is a digital sensor
78002

2023 | 12 Sep 2023 | Shift 1 | Q81

Question 81 Question Id : 96
Who is known as the father of AI?

A. Fisher Ada
96001

B. Alan Turing
96002

C. John McCarthy
96003

D. Allen Newell
96004

Correct option (as printed in source): C. John McCarthy
96003

2023 | 12 Sep 2023 | Shift 1 | Q87

Question 87 Question Id : 90
Which of the following can improve the performance of AI agent?

A. Precision
90001

B. Learning
90002

C. Observing
90003

D. All of the above
90004

Correct option (as printed in source): B. Learning
90002

2024 | 12 Jun 2024 | Shift 2 | Q337

A huge collection of the information or data accumulated form several different sources is known as _____:

[illegible]:

A. Data Management

B. Data Mining

C. Data Warehouse

D. Both "Data Mining" and "Data Warehouse"

Correct option (as printed in source): C. Data Warehouse

2024 | 12 Jun 2024 | Shift 2 | Q376

Which among the following is not true about IoT?

■■■■■■■■■■ ■■■ ■■ ■■■ IOT ■■ ■■■■ ■■■ ■■■ ■■■■ ■■?

A. IoT uses Micro Controllers

B. IoT is fully safe

C. IoT uses Sensors and Actuators

D. IoT uses wireless technology

Correct option (as printed in source): B. IoT is fully safe

2024 | 12 Jun 2024 | Shift 2 | Q384

Input segments of AI programming contain(s)?

■■■ ■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■?

A. Sound

B. Smell

C. Touch

D. None of these

Correct option (as printed in source): D. None of these

2024 | 12 Jun 2024 | Shift 2 | Q386

which of the following is Capabilities of Expert Systems?

■■■■■■■■■■ ■■■ ■■ ■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■?

A. Possessing human capabilities

B. Suggesting alternative options to a problem

C. Refining their own knowledge

D. Substituting human decision makers

Correct option (as printed in source): B. Suggesting alternative options to a problem

2025 | 03 Nov 2025 | Shift 1 | Q14

Who used the term "IoT" fist?

A. Steve Jobs

B. Bill Simpson

C. Kevin Aston

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q38

The advantage of using an expert system development tool is_____?

A. imposed structure

B. knowledge engineering assistance

C. rapid prototyping

D. all of the mentioned

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q71

_____ are used to overcome the challenges of managing the resources of the IoT.

A. Clustering

B. Software agents

C. Synchronization techniques

D. Cluster, Software agent, and Synchronization techniques

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q81

Which among the following are the limiting factors of IoT?

A. Low power

B. Low processing power

C. Low memory

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q19

To capture data from the realworld IoT uses-------

A. Sensors

B. Actuators

C. Microprocesspr

D. Microcontroller

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q68

Which among the following is not true about IoT?

A. IoT uses Micro Controllers

B. IoT is fully safe

C. IoT uses Sensors and Actuators

D. IoT uses wireless technology

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q74

The components expert system is/ are

A. Knowledge Base

B. Inference Engine

C. User Interface

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q36

Why do we need Industry 4.0

A. Detecting Machine failures

B. Preventing Machine failures

C. Improving safaty

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q55

The applications of AI includes

A. Gaming

B. Expert Systems

C. ML and DL

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q69

Who is known as the father of AI?

A. Fisher Ada

B. Alan Turing

C. John McCarthy

D. Allen Newell

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q78

Which of the following can be used to extract or filter the data & information from the data warehouse?

A. Data redundancy

B. Data recovery tool

C. Data mining

D. Both B and C

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q81

AI is about

A. Playing games on Computer

B. Making a machine intelligent

C. putting human intelligence into computer

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q34

About IoT, which among the followings is not correct?

A. Light sensor is analog

B. microphone is a digital sensor

C. Keyboard is a digital sensor

D. Push button is a digital Sensor

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q46

In AI systems, Knowledge can be represented in two ways. What are these two ways?
(i) Machine Logic
(ii) Predicate Logic
(iii) Propositional Logic
(iv) Compound Logic

A. (i) and (ii)

B. (i) and (iii)

C. (ii) and (iii)

D. (iii) and (vi)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q99

which of the following is/ are components of Expert Systems?

A. Knowledge Base

B. Inference logic

C. User Interface

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

Computer Fundamentals & Digital Literacy

2023 | 12 Sep 2023 | Shift 1 | Q5

Question 5 Question Id : 52
What is the primary difference between ROM and RAM?

A. ROM is faster than RAM
52001

B. ROM is volatile, while RAM is non-volatile
52002

C. ROM is used for data storage, while RAM is used for program execution
52003

D. ROM stores permanent data that cannot be changed, while RAM stores temporary data that can be read and written
52004

Correct option (as printed in source): D. ROM stores permanent data that cannot be changed, while RAM stores temporary data that can be read and written
52004

2023 | 12 Sep 2023 | Shift 1 | Q12

Question 12 Question Id : 45
How is the width of the data bus typically measured in a microcomputer system?

A. In kilobytes (KB)
45001

B. In megahertz (MHz)
45002

C. In bits
45003

D. In address lines
45004

Correct option (as printed in source): C. In bits
45003

2023 | 12 Sep 2023 | Shift 1 | Q49

Question 49 Question Id : 7
What is the main goal of software quality assurance?

A. To eliminate all defects from the software
7001

B. To ensure the software is defect-free before release
7002

C. To establish and enforce standards and processes to improve software quality
7003

D. To test software under different conditions
7004

Correct option (as printed in source): C. To establish and enforce standards and processes to improve software quality
7003

2023 | 12 Sep 2023 | Shift 1 | Q54

Question 54 Question Id : 18
What is the purpose of staffing level estimation in software project management?

A. To determine the number of hardware components required
18001

B. To identify potential risks in the project
18002

C. To allocate appropriate resources to the project
18003

D. To estimate the maintenance costs of the software
18004

Correct option (as printed in source): B. To identify potential risks in the project
18002

2023 | 12 Sep 2023 | Shift 1 | Q93

Question 93 Question Id : 85
Which of the following is done by Secure Sockets Layers?

A. creates a secure, private connection to a web server
85001

B. Encrypts information
85002

C. Sends information over the internet
85003

D. All of the above
85004

Correct option (as printed in source): D. All of the above
85004

2023 | 12 Sep 2023 | Shift 1 | Q115

Question 115 Question Id : 118
Which of the following are the characteristics of a person with scientific attitude?

A. Brevity
118001

B. Objectivity
118002

C. Adventure
118003

D. Sharp memory
118004

Correct option (as printed in source): B. Objectivity
118002

2023 | 12 Sep 2023 | Shift 1 | Q147

Question 147 Question Id : 133
Choose the word which is least like the other words in the group.

A. Kidney
133001

B. Heart
133002

C. Lung
133003

D. Ear
133004

Correct option (as printed in source): B. Heart
133002

2025 | 03 Nov 2025 | Shift 1 | Q23

What consists of the identification of risks or threats, the implementation of security measures, and the monitoring of those measures for effectiveness?

A. Risk assessment

B. Security

C. Risk Management

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q53

The "inode" in a Unix-like file system is used to:

A. Store the contents of the file

B. Store the file's name and location

C. Store the attributes and metadata of the file

D. Store the directory structure of the file system

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q62

Which of the following is not a limitation of file system?

A. Data Redundancy

B. Data Inconsistency

C. Data dependence

D. Storing Space

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q67

Which of the following operator evaluates to True if the variable on either side of the operator points towards the same memory location and False otherwise ?

A. is

B. is not

C. and

D. or

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q75

What is the purpose of staffing level estimation in software project management?

A. To determine the number of hardware components required

B. To identify potential risks in the project

C. To allocate appropriate resources to the project

D. To estimate the maintenance costs of the software

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q83

How is the width of the data bus typically measured in a microcomputer system?

A. In kilobytes (KB)

B. In megahertz (MHz)

C. In bits

D. In address lines

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

Which of the following is the sequence of different levels of teaching?
3

A. Memory level-Understanding level-Reflective level

B. Understanding level-Memory level-Reflective level

C. Reflective level-Understanding level-Memory Level

D. Memory level-Reflective level-Understanding level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q12

Teacher can utilize both assessment for learning and assessment of learning to-------
7

A. Know learning needs of child and select teaching strategy accordingly

B. Assess child’s performance at periodic intervals and certify his/her performance

C. Monitor children’s progress and set appropriate goals to fill their learning gaps

D. Know children’s progress and achievement level

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q15

In the following question, from the given alternative words, select the word which
0 cannot be formed using the letters of the given word.
Nightwalker

A. Talker

B. Tailer

C. Waller

D. Winer

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q17

Consider the statements given below and then choose the correct output from the given options :

```
N='5'
try :
print ( 'WORD ' + N, end= '#')
except :
print ( 'ERROR' , end= ' # ' )
finally :
print ( ' OVER ')
```

A. ERROR#

B. WORD5#OVER

C. WORD5#

D. ERROR#OVER

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q47

Open System _____ tends to evolve more quickly than proprietary systems?

A. Hardware

B. Software

C. Hardware and Software

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q50

A large computer information system maintains many different computer files. Which amongst them is called a perpetual file?

A. Specialized File

B. Master File

C. Log File

D. Update File

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q51

Which of the following could be a disadvantage of 'open source' software?

A. High quality software with lots of features

B. Not as customizable

C. May not have been tested as much as proprietary software so might have bugs

D. You can edit the source code to customize it

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q86

Which of the following is done by Secure Sockets Layers?

A. creates a secure, private connection to a web server

B. Encrypts information

C. Sends information over the internet

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q4

The concept of monitors was introduced by:

A. Edsger Dijkstra

B. Alan Turing

C. Tim Berners-Lee

D. Linus Torvalds

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q51

The software developed to detect and remove viruses only is called _____.

A. Malware

B. Antivirus

C. Spyware

D. Adware

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q66

SFTP is used for :

A. Sending Files over the Internet in a secure manner

B. Sending Mail over the Internet in a secure manner

C. Video Conferencing

D. Secure Chat Services

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q87

EBCDIC is mainly used in which type of computer systems?

A. Mainframe computers

B. Personal computers

C. Supercomputers

D. Mobile devices

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q7

All of the following are considered biometrics, except:

A. Fingerprint

B. Password

C. Voice

D. Retina

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q51

Which maintenance activity involves updating software to work with new hardware or software environments?

A. Corrective Maintenance

B. Adaptive Maintenance

C. Perfective Maintenance

D. Preventive Maintenance

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q74

Which of the following is not a Search Engine available over the Internet ?

A. Google

B. Bing

C. Diksha

D. Yahoo

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q93

Which of the following is a service for real-time text communication on the internet ?

A. e-Learning

B. FTP

C. Video conferencing

D. Chat

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

General Computer Science

2023 | 12 Sep 2023 | Shift 1 | Q25

Question 25 Question Id : 69
In the Tower of Hanoi problem with "n" disks, how many moves are required to solve the problem?

A. n
69001

B. 2n
69002

C. 2^n - 1
69003

D. 2^n
69004

Correct option (as printed in source): C. 2^n - 1
69003

2023 | 12 Sep 2023 | Shift 1 | Q37

Question 37 Question Id : 38
Which of the following is a top-down approach in which the entity's higher level can be divided into two lower sub-entities?

A. Aggregation
38001

B. Generalization
38002

C. Specialization
38003

D. All of the above
38004

Correct option (as printed in source): C. Specialization
38003

2023 | 12 Sep 2023 | Shift 1 | Q38

Question 38 Question Id : 37
The term "DFD" stands for?

A. Data file diagram
37001

B. Data flow document
37002

C. Data flow diagram
37003

D. None of the above
37004

Correct option (as printed in source): C. Data flow diagram
37003

2023 | 12 Sep 2023 | Shift 1 | Q40

Question 40 Question Id : 16
The term "Data" refers to:

A. The electronic representation of the information(or data)
16001

B. Basic information
16002

C. Row Facts and figures
16003

D. Both A and C
16004

Correct option (as printed in source): C. Row Facts and figures
16003

2023 | 12 Sep 2023 | Shift 1 | Q43

Question 43 Question Id : 13
Data transmission using multiple pathways simultaneously is known as:

A. Parallel Transmission
13001

B. Serial Transmission
13002

C. Duplex Transmission
13003

D. Half-duplex Transmission
13004

Correct option (as printed in source): A. Parallel Transmission
13001

2023 | 12 Sep 2023 | Shift 1 | Q46

Question 46 Question Id : 10
Routing involves:

A. Dividing data into frames
10001

B. Managing flow control
10002

C. Determining the best path for data packets
10003

D. Correcting errors in data transmission
10004

Correct option (as printed in source): C. Determining the best path for data packets
10003

2023 | 12 Sep 2023 | Shift 1 | Q68

Question 68 Question Id : 26
The Kleene Star operation accepts the following string of finite length over set A = {0,1} | where string s contains even number of 0 and 1.

A. 01, 0011,010101
26001

B. 0011, 11001100
26002

C. ε, 0011, 11001101
26003

D. ε, 0011, 11001100
26004

Correct option (as printed in source): D. ε, 0011, 11001100
26004

2023 | 12 Sep 2023 | Shift 1 | Q70

Question 70 Question Id : 24
Let u='1101', v='0001', then uv=11010001 and vu= 00011101.Using the given information what is the identity element for the string?

A. u-1
24001

B. v-1
24002

C. u-1v-1
24003

D. ε
24004

Correct option (as printed in source): D. ε
24004

2023 | 12 Sep 2023 | Shift 1 | Q72

Question 72 Question Id : 22
Minimum Number of states require to accept string ends with 101.

A. 3
22001

B. 2
22002

C. 1
22003

D. can't be represented
22004

Correct option (as printed in source): B. 2
22002

2023 | 12 Sep 2023 | Shift 1 | Q77

Question 77 Question Id : 92
BLE stands for

A. Bluetooth large energy
92001

B. Bluetooth low energy
92002

C. Bluetooth light energy
92003

D. Bluetooth long energy
92004

Correct option (as printed in source): B. Bluetooth low energy
92002

2023 | 12 Sep 2023 | Shift 1 | Q79

Question 79 Question Id : 94
A complex SCADA system has _____levels?

A. 6
94001

B. 5
94002

C. 3
94003

D. 4
94004

Correct option (as printed in source): D. 4
94004

2023 | 12 Sep 2023 | Shift 1 | Q80

Question 80 Question Id : 97
What is the role of the MISO pin in the RFID Module?

A. Master In Slave Out
97001

B. Manage Internal Slave Output
97002

C. Master Internal Search Optimization
97003

D. Manage Input Slave Op
97004

Correct option (as printed in source): A. Master In Slave Out
97001

2023 | 12 Sep 2023 | Shift 1 | Q84

Question 84 Question Id : 99
Uniform-cost search expands the node n with the _____

A. Lowest path cost
99001

B. Heuristic cost
99002

C. Highest path cost
99003

D. Average path cost
99004

Correct option (as printed in source): A. Lowest path cost
99001

2023 | 12 Sep 2023 | Shift 1 | Q88

Question 88 Question Id : 77
Which of the following is part of the four main types for e■commerce?

A. B2B
77001

B. B2C
77002

C. C2B
77003

D. All of the above
77004

Correct option (as printed in source): D. All of the above
77004

2023 | 12 Sep 2023 | Shift 1 | Q90

Question 90 Question Id : 87
If it is easy for competitors to enter the market, the threat of new entrants is considered:

A. Low
87001

B. High
87002

C. Moderate
87003

D. Negligible
87004

Correct option (as printed in source): B. High
87002

2023 | 12 Sep 2023 | Shift 1 | Q91

Question 91 Question Id : 89
Which of the following refers to creating products tailored to individual customers?

A. Customization
89001

B. Adaptation
89002

C. Direct material
89003

D. Auction
89004

Correct option (as printed in source): A. Customization
89001

2023 | 12 Sep 2023 | Shift 1 | Q92

Question 92 Question Id : 86
Which form of e■marketplace brings together buyers and sellers from the same industry?

A. Horizontal
86001

B. Vertical
86002

C. integrated
86003

D. isolated
86004

Correct option (as printed in source): B. Vertical
86002

2023 | 12 Sep 2023 | Shift 1 | Q94

Question 94 Question Id : 84
The delay that occur during the playback of a stream is called _____

A. Stream delay
84001

B. Playback delay
84002

C. Jitter
84003

D. Event delay
84004

Correct option (as printed in source): C. Jitter
84003

2023 | 12 Sep 2023 | Shift 1 | Q96

Question 96 Question Id : 83
In Real Time Interactive Audio Video, Jitter is introduced in real-time data by delay between____

A. pixels
83001

B. layers
83002

C. frames
83003

D. packets
83004

Correct option (as printed in source): D. packets
83004

2023 | 12 Sep 2023 | Shift 1 | Q97

Question 97 Question Id : 82
In Audio and Video Compression, voice is sampled at 8000 samples per second with_____

A. 8 bits per sample
82001

B. 5 bits per sample
82002

C. 7 bits per sample
82003

D. 6 bits per sample
82004

Correct option (as printed in source): A. 8 bits per sample
82001

2023 | 12 Sep 2023 | Shift 1 | Q98

Question 98 Question Id : 81
Audio compression can be used for_____

A. voice and data
81001

B. video and voice
81002

C. speech or music
81003

D. picture and colors
81004

Correct option (as printed in source): C. speech or music
81003

2023 | 12 Sep 2023 | Shift 1 | Q99

Question 99 Question Id : 80
Each ___ represents a particular colour.

A. Frame
80001

B. Character
80002

C. Pixel value
80003

D. None of the above
80004

Correct option (as printed in source): C. Pixel value
80003

2023 | 12 Sep 2023 | Shift 1 | Q100

Question 100 Question Id : 79
_____ is basically a form of pictorial presentation.

A. Photography
79001

B. Animations
79002

C. Drawing
79003

D. Creativity
79004

Correct option (as printed in source): B. Animations
79002

2023 | 12 Sep 2023 | Shift 1 | Q101

Question 101 Question Id : 120
The main aim of classroom teaching is

A. to give information
120001

B. help to pass examination
120002

C. syllabus coverage
120003

D. to develop personality
120004

Correct option (as printed in source): D. to develop personality
120004

2023 | 12 Sep 2023 | Shift 1 | Q102

Question 102 Question Id : 121
To ensure participation of students we use

A. demonstration
121001

B. little man's lecture
121002

C. discussion
121003

D. illustration
121004

Correct option (as printed in source): C. discussion
121003

2023 | 12 Sep 2023 | Shift 1 | Q103

Question 103 Question Id : 125
learning through independent effort is

A. autonomous learning
125001

B. autocratic learning
125002

C. democratic learning
125003

D. all the above
125004

Correct option (as printed in source): A. autonomous learning
125001

2023 | 12 Sep 2023 | Shift 1 | Q104

Question 104 Question Id : 123
Aims

A. may include abstract concepts
123001

B. difficult to measure
123002

C. may include appreciation
123003

D. All the above
123004

Correct option (as printed in source): D. All the above
123004

2023 | 12 Sep 2023 | Shift 1 | Q105

Question 105 Question Id : 124
psychomotor domain relates to

A. map making
124001

B. project making
124002

C. playing
124003

D. all the above
124004

Correct option (as printed in source): D. all the above
124004

2023 | 12 Sep 2023 | Shift 1 | Q106

Question 106 Question Id : 119
Heuristic means

A. to invertigate
119001

B. to show
119002

C. to do
119003

D. to act
119004

Correct option (as printed in source): A. to invertigate
119001

2023 | 12 Sep 2023 | Shift 1 | Q107

Question 107 Question Id : 117
Armstrong gifted teaching with

A. Project method
117001

B. heuristic method
117002

C. team teaching
117003

D. blended method
117004

Correct option (as printed in source): B. heuristic method
117002

2023 | 12 Sep 2023 | Shift 1 | Q108

Question 108 Question Id : 126
Set induction relates to

A. previous knowledge
126001

B. new knowledge
126002

C. specific objectives
126003

D. statement of aim
126004

Correct option (as printed in source): A. previous knowledge
126001

2023 | 12 Sep 2023 | Shift 1 | Q109

Question 109 Question Id : 127
Diadactic teaching materials was introduced by

A. Pestalozzi
127001

B. froebel
127002

C. Montessori
127003

D. Dewey
127004

Correct option (as printed in source): C. Montessori
127003

2023 | 12 Sep 2023 | Shift 1 | Q110

Question 110 Question Id : 128
The centre point of a lesson plan is

A. principal
128001

B. teacher
128002

C. student
128003

D. none of the above
128004

Correct option (as printed in source): C. student
128003

2023 | 12 Sep 2023 | Shift 1 | Q111

Question 111 Question Id : 129
According to Howard Gardner, a philosopher has ……. Type of intelligence and a sculptor has more ……. type of intelligence.

A. interpersonal; linguistic
129001

B. linguistic; interpersonal
129002

C. spatial; intrapersonal
129003

D. intrapersonal; spatial
129004

Correct option (as printed in source): D. intrapersonal; spatial
129004

2023 | 12 Sep 2023 | Shift 1 | Q112

Question 112 Question Id : 108
Which of the following is an example of an internal attribution for failure?

A. I failed the test because my friends were distracting me.
108001

B. I received a low grade because the teacher is a tough grader.
108002

C. I failed the test because I didn't study enough.
108003

D. I didn't get good marks because the teacher was biased.
108004

Correct option (as printed in source): C. I failed the test because I didn't study enough.
108003

2023 | 12 Sep 2023 | Shift 1 | Q114

Question 114 Question Id : 122
Micro teaching is more effective

A. always
122001

B. after the teaching-practice
122002

C. during the teaching-practice
122003

D. during the preparation for teaching-practice
122004

Correct option (as printed in source): C. during the teaching-practice
122003

2023 | 12 Sep 2023 | Shift 1 | Q116

Question 116 Question Id : 115
Library man Provide

A. Physical mateial
115001

B. Digital material
115002

C. Both A & B
115003

D. None of these
115004

Correct option (as printed in source): C. Both A & B
115003

2023 | 12 Sep 2023 | Shift 1 | Q117

Question 117 Question Id : 116
Which of the following components are essential for library?

A. Learning
116001

B. Walking
116002

C. Playing
116003

D. None of these
116004

Correct option (as printed in source): A. Learning
116001

2023 | 12 Sep 2023 | Shift 1 | Q118

Question 118 Question Id : 101
A teacher should ask-

A. meaningful question
101001

B. maximum number of question in a fixed time
101002

C. as many question as possible
101003

D. None of these
101004

Correct option (as printed in source): A. meaningful question
101001

2023 | 12 Sep 2023 | Shift 1 | Q119

Question 119 Question Id : 102
Which of the following important cause of failure for teacher?

A. interpersonal relationship
102001

B. verbal ability
102002

C. lack of command over the knowledge of subject
102003

D. None of the above
102004

Correct option (as printed in source): C. lack of command over the knowledge of subject
102003

2023 | 12 Sep 2023 | Shift 1 | Q120

Question 120 Question Id : 104
Teacher should master during his teaching period

A. in one of the teaching method
104001

B. equally acros all teaching method
104002

C. Both A & B
104003

D. None of these
104004

Correct option (as printed in source): B. equally acros all teaching method
104002

2023 | 12 Sep 2023 | Shift 1 | Q121

Question 121 Question Id : 105
Knowledge is-

A. Information
105001

B. Application
105002

C. Analysis
105003

D. Understanding
105004

Correct option (as printed in source): A. Information
105001

2023 | 12 Sep 2023 | Shift 1 | Q123

Question 123 Question Id : 107
Which technique is used for evaluation of interest?

A. Observation technique
107001

B. Check list
107002

C. Rating scale
107003

D. Projective Technique
107004

Correct option (as printed in source): C. Rating scale
107003

2023 | 12 Sep 2023 | Shift 1 | Q124

Question 124 Question Id : 103
Which of the following is not a type of curriculum design?

A. Subject-centered
103001

B. Problem Centered
103002

C. Learner-Centered
103003

D. Teacher-Centered
103004

Correct option (as printed in source): D. Teacher-Centered
103004

2023 | 12 Sep 2023 | Shift 1 | Q125

Question 125 Question Id : 109
Which of the following is not the nature of curriculum?

A. Critical
109001

B. Creative
109002

C. Conservative
109003

D. Active
109004

Correct option (as printed in source): D. Active
109004

2023 | 12 Sep 2023 | Shift 1 | Q126

Question 126 Question Id : 110
The biggest challenge before democracy is -

A. Fundamentalism
110001

B. Castism
110002

C. Regionalism
110003

D. All the above
110004

Correct option (as printed in source): A. Fundamentalism
110001

2023 | 12 Sep 2023 | Shift 1 | Q127

Question 127 Question Id : 111
A teacher shoul behave with all the student as -

A. as a friend
111001

B. as a master
111002

C. equally
111003

D. personally
111004

Correct option (as printed in source): A. as a friend
111001

2023 | 12 Sep 2023 | Shift 1 | Q128

Question 128 Question Id : 112
Failure can be our best teacher if-

A. we work harder than before
112001

B. we know the reasons of failure
112002

C. we know the reasons of failure and then being encouraged we work harder than before
112003

D. none of the above
112004

Correct option (as printed in source): C. we know the reasons of failure and then being encouraged we work harder than before
112003

2023 | 12 Sep 2023 | Shift 1 | Q129

Question 129 Question Id : 113
Chal-Board is a kind of teaching aid-

A. Visual
113001

B. Audio
113002

C. Audio-Visual
113003

D. All of the above
113004

Correct option (as printed in source): A. Visual
113001

2023 | 12 Sep 2023 | Shift 1 | Q130

Question 130 Question Id : 114
Television is

A. Visual aid
114001

B. Audio-visual aid
114002

C. Audio aid
114003

D. None of the above
114004

Correct option (as printed in source): B. Audio-visual aid
114002

2023 | 12 Sep 2023 | Shift 1 | Q131

Question 131 Question Id : 149
There were widespread rises against the British in the 1820s. Which one of the following did not revolt in the 1820s?

A. Santhals
149001

B. Ahoms
149002

C. Pagal Panthis
149003

D. Ramosi
149004

Correct option (as printed in source): A. Santhals
149001

2023 | 12 Sep 2023 | Shift 1 | Q132

Question 132 Question Id : 148
If the Sun rises at Tirap in Arunachal Pradesh at 5.00 am (IST), then when (IST) the Sun will rise in Kandla, Gujarat?

A. About 5.00 a.m.
148001

B. About 6.20 a.m.
148002

C. About 7.30 a.m.
148003

D. About 7.00 a.m.
148004

Correct option (as printed in source): D. About 7.00 a.m.
148004

2023 | 12 Sep 2023 | Shift 1 | Q133

Question 133 Question Id : 147
What is the maximum investment by any single investor in an Indian company?

A. 10%
147001

B. 15%
147002

C. 20%
147003

D. 25%
147004

Correct option (as printed in source): A. 10%
147001

2023 | 12 Sep 2023 | Shift 1 | Q134

Question 134 Question Id : 146
Who among the following was not related to Champaran Satyagraha?

A. Dr. Rajendra Prasad
146001

B. Anugrah Narayan Singh
146002

C. JB Kriplani
146003

D. Jai Prakash Narayan
146004

Correct option (as printed in source): D. Jai Prakash Narayan
146004

2023 | 12 Sep 2023 | Shift 1 | Q136

Question 136 Question Id : 144
Rama plays cricket with his friends every evening. Which energy does he use to play cricket?

A. Sound energy
144001

B. Light energy
144002

C. Chemical energy
144003

D. Muscular energy
144004

Correct option (as printed in source): D. Muscular energy
144004

2023 | 12 Sep 2023 | Shift 1 | Q137

Question 137 Question Id : 143
Which one of the following is 'sticky rice' and is a common variety of rice in Assam?

A. Ponni rice
143001

B. Bora rice
143002

C. Arborio rice
143003

D. Bomba rice
143004

Correct option (as printed in source): B. Bora rice
143002

2023 | 12 Sep 2023 | Shift 1 | Q138

Question 138 Question Id : 142
When we burn fuels, we get :

A. Light and sound energy
142001

B. Only light energy
142002

C. Heat and light energy
142003

D. Mechanical and Light energy
142004

Correct option (as printed in source): C. Heat and light energy
142003

2023 | 12 Sep 2023 | Shift 1 | Q139

Question 139 Question Id : 141
Consider the following statements about snakes and identify the Incorrect one from the following:

A. They chew up their prey
141001

B. They swallow their food whole
141002

C. Snakes have sharp teeth
141003

D. Poisonous snakes have fangs.
141004

Correct option (as printed in source): A. They chew up their prey
141001

2023 | 12 Sep 2023 | Shift 1 | Q140

Question 140 Question Id : 131
With respect to Gujarat, the locations of Uttar Pradesh and Andhra Pradesh, respectively, are:

A. North-West; Saouth-East
131001

B. North-West; South-West
131002

C. North-East; South-West
131003

D. North-East; South-East
131004

Correct option (as printed in source): D. North-East; South-East
131004

2023 | 12 Sep 2023 | Shift 1 | Q141

Question 141 Question Id : 139
Which one of the following groups have all 3-dimensional shapes?

A. Cube, Cuboid, Sphere, Cylinder
139001

B. Cube, Cuboid, Semi-Circle, Cone
139002

C. Cube, Cuboid, Circle, Cone
139003

D. Cube, Cuboid, Circle, Triangle
139004

Correct option (as printed in source): A. Cube, Cuboid, Sphere, Cylinder
139001

2023 | 12 Sep 2023 | Shift 1 | Q142

Question 142 Question Id : 138
What is the missing number in the pattern given below? 1, 6, 15, -------45, 66, 91

A. 25
138001

B. 36
138002

C. 28
138003

D. 32
138004

Correct option (as printed in source): C. 28
138003

2023 | 12 Sep 2023 | Shift 1 | Q143

Question 143 Question Id : 137
A whole number is added to 100 and the same number is subtracted from 100. the sum of the two resulting numbers so obtained is :

A. 100
137001

B. 200
137002

C. 0
137003

D. 50
137004

Correct option (as printed in source): B. 200
137002

2023 | 12 Sep 2023 | Shift 1 | Q144

Question 144 Question Id : 136
The sum of 5 - 5 + 5 - 5 + 5 - 5 …… , to odd number of terms is :

A. 5
136001

B. 15
136002

C. 0
136003

D. -5
136004

Correct option (as printed in source): A. 5
136001

2023 | 12 Sep 2023 | Shift 1 | Q145

Question 145 Question Id : 135
Which of the following arrangements represents a descending order of numbers?

A. 10.5, 1.50, 1.05, 1.055, 1.005, 0.155
135001

B. 10.5, 1.50, 1.055, 1.05, 1.005, 0.155
135002

C. 1.05, 1.005, 1.50, 1.055, 10.5, 0.155
135003

D. 10.5, 1.05, 1.055, 1.50, 1.005, 0.155
135004

Correct option (as printed in source): B. 10.5, 1.50, 1.055, 1.05, 1.005, 0.155
135002

2023 | 12 Sep 2023 | Shift 1 | Q146

Question 146 Question Id : 134
Monday : April : : Friday : ?

A. July
134001

B. Saturday
134002

C. August
134003

D. Tuesday
134004

Correct option (as printed in source): C. August
134003

2023 | 12 Sep 2023 | Shift 1 | Q148

Question 148 Question Id : 132
60,30,120,15,240?

A. 30
132001

B. 120
132002

C. 140
132003

D. 71/2
132004

Correct option (as printed in source): D. 71/2
132004

2023 | 12 Sep 2023 | Shift 1 | Q149

Question 149 Question Id : 140
In a certain code, if BAD is written as YZW and SAID is written as HZRW, then LIFE will be written as:

A. ORUV
140001

B. OSUV
140002

C. OQVU
140003

D. ORVW
140004

Correct option (as printed in source): A. ORUV
140001

2023 | 12 Sep 2023 | Shift 1 | Q150

Question 150 Question Id : 150
Pointing towards Sita, Nikhil said, "I am the only son of her mother's son". How is Sita related to Nikhil?

A. Aunt
150001

B. Niece
150002

C. Mother
150003

D. Cousin
150004

Correct option (as printed in source): A. Aunt
150001

2024 | 12 Jun 2024 | Shift 2 | Q329

The file organization method that uses a table to map logical file addresses to physical block addresses is known as:

[illegible]:

A. Contiguous allocation

B. Linked allocation

C. Indexed allocation

D. Variable allocation

Correct option (as printed in source): C. Indexed allocation

2024 | 12 Jun 2024 | Shift 2 | Q334

What does an RDBMS consist of?

RDBMS ■■■ ■■■■ ■■■■■ ■■?

A. Collection of Records

B. Collection of Keys

C. Collection of Tables

D. Collection of Fields

Correct option (as printed in source): C. Collection of Tables

2024 | 12 Jun 2024 | Shift 2 | Q335

Rows of a relation are known as the _____.

■■ ■■■■■ ■■ ■■■■■■■■■■ ■■ _____ ■■ ■■■ ■■■ ■■■■ ■■■■ ■■■

A. Degree

B. Tuples

C. Entity

D. All of these

Correct option (as printed in source): B. Tuples

2024 | 12 Jun 2024 | Shift 2 | Q340

Which one of the following is a type of Data Manipulation Command?

■■■■■■■■■■ ■■■ ■■ ■■■ ■■ ■■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■ ■■■■■■ ■■?

A. Delete

B. Alter

C. Create

D. All of these

Correct option (as printed in source): A. Delete

2024 | 12 Jun 2024 | Shift 2 | Q344

Data transmission using multiple pathways simultaneously is known as:

■■ ■■■ ■■ ■■■■■■■ ■■ ■■■■■ ■■■■ ■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■ ■■■ ■■■■ ■■■■ ■■?

A. Parallel Transmission

B. Serial Transmission

C. Duplex Transmission

D. Half-duplex Transmission

Correct option (as printed in source): A. Parallel Transmission

2024 | 12 Jun 2024 | Shift 2 | Q346

Which sublayer of the Data Link Layer manages access to the shared communication medium?

■■■■ ■■ ■■■ ■■ ■■■■■ ■■■■ ■■■■■ ■■■■■■ ■■ ■■■■■ ■■ ■■■■■■■ ■■■■ ■■?

A. Logical Link Control (LLC)

B. Media Access Control (MAC)

C. Flow Control Sublayer

D. Error Control Sublayer

Correct option (as printed in source): B. Media Access Control (MAC)

2024 | 12 Jun 2024 | Shift 2 | Q388

Which type of e■commerce focuses on consumers dealing with each other?

■■■ ■■■■■■■ ■■ ■ is ■■■■■■■ ■■ -■■ ■■■■ ■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■ ■■■■ ■■■■■■ ■■■■■ ■■■?

A. B2B

B. B2C

C. C2C

D. C2B

Correct option (as printed in source): C. C2C

2024 | 12 Jun 2024 | Shift 2 | Q392

What does A stands for in CIA

CIA ■■■ ■■■■■ ■■

A. Assured

B. Actual

C. Availability

D. Any

Correct option (as printed in source): C. Availability

2024 | 12 Jun 2024 | Shift 2 | Q394

In Audio and Video Compression, term RBG expresses_____

■■■■■■ ■■ ■■■■■■■ ■■■■■■■■ ■■■■, ■■■■■ rbg ■■■■■■■ ■■■■■ ■■ _____

A. red, black, grey

B. blue, grey, white.

C. red, blue, green.

D. red, bluish, greyish.

Correct option (as printed in source): C. red, blue, green.

2024 | 12 Jun 2024 | Shift 2 | Q396

Morphing is

■■■■■■■■ ■ ■■

A. picture enhancing technique

B. picture manipulation

C. transformation from one image to other

D. None of these

Correct option (as printed in source): C. transformation from one image to other

2024 | 12 Jun 2024 | Shift 2 | Q398

Which of the following image processing approaches is the fastest, most accurate, and flexible?

■■■■■■■■■■■ ■■■■ ■■ ■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■, ■■■■■ ■■■■■ ■■■ ■■■■■■ ■■■?

A. Photographic

B. Electronic

C. Digital

D. Optical

Correct option (as printed in source): C. Digital

2024 | 12 Jun 2024 | Shift 2 | Q400

Which gray-level transformation increases the dynamic range of gray-level in the image?

[illegible]?

A. Negative transformations

B. Contrast stretching

C. Power-law transformations

D. None of the mentioned

Correct option (as printed in source): B. Contrast stretching

2024 | 12 Jun 2024 | Shift 2 | Q402

In the context of a dynamic teaching environment, which of the following statement is true?

[illegible]?

A. Teacher is a dependent variable and student is an independent variable.

B. Teacher is an independent variable and the student is a dependent variable.

C. Both teacher and student are intervening variables.

D. None of these

Correct option (as printed in source): B. Teacher is an independent variable and the student is a dependent variable.

2024 | 12 Jun 2024 | Shift 2 | Q408

The Socratic method is known as

[illegible]

A. Lecture demonstration method

B. Discussion method

C. Inquiry method

D. Question- Answer method

Correct option (as printed in source): D. Question- Answer method

2024 | 12 Jun 2024 | Shift 2 | Q410

Read a piece of literature and answer guiding questions about it is an example of

[illegible]

A. Engage

B. Elaborate

C. Explore

D. Explain

Correct option (as printed in source): C. Explore

2024 | 12 Jun 2024 | Shift 2 | Q412

How many planning elements involved in discussion method

[illegible]?

A. 5

B. 7

C. 8

D. 6

Correct option (as printed in source): D. 6

2024 | 12 Jun 2024 | Shift 2 | Q414

3. Given below are two statements: Statement (I): Learning is also considered as a social construct Statement (II): Social construct is characterised by development of socially desired behaviour. In the light of above statements, choose the most appropriate answers from the given options.

"3. ■■■■■ ■■ ■■■■ ■■■■ ■■ ■■■■: ■■■■ (I): ■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■ ■■■■■ ■■ ■■■■ (II): ■■■■■■■■
■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■■■ ■■■■ ■■■■ ■■
■■■■■■■■■ ■■■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■"

A. Both Statement (I) and Statement (II) are correct.

B. Both Statement (I) and Statement (II) are incorrect.

C. Statement (I) is correct but Statement (II) is incorrect.

D. Statement (I) is incorrect but Statement (II) is correct.

Correct option (as printed in source): A. Both Statement (I) and Statement (II) are correct.

2024 | 12 Jun 2024 | Shift 2 | Q416

Children acquire gender roles through all of the following, except-

■■■■■■■ ..... ■■ ■■■■■■■ ■■■■■■ ■■■■ ■■ ■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■

A. media

B. socialization

C. culture

D. tutoring

Correct option (as printed in source): D. tutoring

2024 | 12 Jun 2024 | Shift 2 | Q418

As a facilitator of learning, a teacher requires

■■■■■■ ■■ ■■■■■■■■■■ ■■ ■■■■ ■■■■ ■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■ ■■

A. two months leave

Correct option (as printed in source): D. dengue, malaria, chikungunya

2024 | 12 Jun 2024 | Shift 2 | Q440

Which of the following is the main purpose of carbohydrates in the body?

[illegible]?

A. They provide chemicals repairing cells, and aid in digestion.

B. They help regulate hormones and maintain body temperature within the body

C. They are the main source of energy for everybody.

D. None of these

Correct option (as printed in source): C. They are the main source of energy for everybody.

2024 | 12 Jun 2024 | Shift 2 | Q441

The shape of carrot is similar to ---------

[illegible]

A. cuboid

B. Circle

C. Cone

D. volume

Correct option (as printed in source): C. Cone

2024 | 12 Jun 2024 | Shift 2 | Q443

Sum of two negative number is always

[illegible]

A. Positive

B. Negative

C. 0

D. 1

Correct option (as printed in source): B. Negative

2024 | 12 Jun 2024 | Shift 2 | Q445

A truck has 673 boxes of candies. Each box has a dozen candies in it. What is the total number of candies on the truck?

[illegible] 673 **[illegible]?**

A. 8076

B. 8067

C. 8066

D. 8077

Correct option (as printed in source): A. 8076

2024 | 12 Jun 2024 | Shift 2 | Q447

If Red is called Blue, orange is called green, green is called white, white is called yellow,

[illegible]

- **A.** Blue
- **B.** Red
- **C.** White
- **D.** Green

Correct option (as printed in source): C. White

2024 | 12 Jun 2024 | Shift 2 | Q450

63. A,B,C,D and E five boys sitting in a circle. C is sitting immediate left of E. A is sitting between D and E. Then who is sitting between B and A ?

[illegible]

- **A.** C
- **B.** E
- **C.** D
- **D.** None

Correct option (as printed in source): C. D

2025 | 03 Nov 2025 | Shift 1 | Q10

Which of the following refers to creating products tailored to individual customers?

- **A.** Customization
- **B.** Adaptation
- **C.** Direct material
- **D.** Auction

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

What does I stands for in CIA
0

- **A.** Indian
- **B.** Individual
- **C.** Income
- **D.** Integrity

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

The category of Audio -Visual Aids is:
1

- **A.** Tape-recorder
- **B.** Television
- **C.** Radio
- **D.** All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

The importance of curriculum in the system of education is just like a:
3

A. Preparation of students for service

B. Constitution in a country

C. Provision of latest knowledge

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

Project-based activities is an example of
4

A. Explore

B. Engage

C. Explain

D. Elaborate

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q10

Full form of EATS model is
8

A. Essential questions, activity prior knowledge, teaching, summarizing & assessment

B. Elements questions, activity prior knowledge, teaching and summarizing

C. Experiential questions, activity prior knowledge, teaching, summarizing & assessment

D. Essential questions, activity prior knowledge, teaching and summarizing

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q11

The length of an IPv6 address is:

A. 32 bits

B. 64 bits

C. 128 bits

D. 256 bits

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q11

A teaching procedure involved in the clarification or explanation to the student of some
0 major idea is called

A. demonstration method

B. lecture method

C. story telling method

D. problem solving method

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q11

Which of the following best describes a symposium?
8

A. A meeting of delegates from a fraternal organization

B. A public meeting where a short course of study is addressed by a single expert

C. A meeting where a small group of experts presents different aspects of a problem or topic to an audience

D. A debate between two opposing teams

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

First, the students will make a prediction of what will happen in the story. Then the
0 students must make a list of the main events in the story. Lastly, I will write a review of the story. What skills are being used?

A. Application, Synthesis, and Evaluation

B. Comprehension, Knowledge, and Analysis

C. Comprehension, Knowledge, and Evaluation

D. Evaluation, Knowledge, and Synthesis

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

You want to adopt the teaching profession because
1

A. there are many others in your family who are teachers

B. there is no other option to earn a livelihood

C. children give more respect and reverence

D. you get an oppurtinity to handle/ train the future citizens of the nation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

Which of the following is the objective of a teacher?
3

A. To gain possible maximum fame

B. To extend the welfare of students to the possible maximum limit

C. To teach the possible maximum number of students

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

The purpose of integrated curriculum is:
5

A. Increase in no. of books

B. Decrease in no. of books

C. Increases in students enrolment

D. Decrease in dropout

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

The method for the acquisition of teaching skill is
7

A. Inquiry learning

B. Team teaching

C. Discovery learning

D. Micro teaching

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

Is micro teaching real teaching?
8

A. Yes

B. no

C. Both yes and no from different perspectives

D. Can't say anything.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q12

Basic education should be
9

A. student oriented

B. activity oriented

C. project oriented

D. all of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

Story telling enables the teacher to make lessons
0

A. boring

B. complicated

C. a burden for students

D. lively and interesting to the pupils

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

In any code GROUND is written as HQPTOC then what will be TIRED written in that
1 code?

A. UHSDE

B. VHSDE

C. UHSDC

D. UHQFC

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

What is the term for a market condition where supply exceeds demand?
2

A. Shortage

B. Surplus

C. Equilibrium

D. Deficit

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

Khudai Khidmatgars were popularly known as the _____
3

A. Green Shirts

B. Red Shirts

C. Black Shirts

D. White Shirts

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

To kill fungus on crops we generally used…….
4

A. Insecticides

B. Pesticides

C. Fungicides

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

For some people, playing is actually work. Below are some names of famous people,
5 Pick the name whose work is actually playing.

A. Ajeet Yogi

B. Michael Jordan

C. Jack Nicholson

D. Steve Jobs

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

Choose the correct option instead of the question mark in the given question.
6

GOA : 761 :: KAIMUR : ?

A. 119439

B. 219339

C. 219439

D. 218349

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

What will come in place of ? in the sequence 3, 14, 39, 84, ?, 258?
7

A. 150,

B. 155

C. 160

D. 176

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q13

Meena divides a number by 2. She then divides the answer by 2. This is the same as
8 dividing the original number by:

A. 4

B. 3

C. 2

D. 1

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Pravin walked 30 metres towards East, took a right turn and walked 20 metres, again
1 took a right turn and walked 30 metres. How far was he from the starting point?

A. 50 m.

B. 40 m.

C. 10 m.

D. 20 m.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

The statement related to the congruence of a triangle – “Given the length of any two
2 sides and the length of these sides and the measure of the angle between these sides”
– is a restriction/condition.

A. SSS

B. S.A.S.

C. ASA

D. RHS

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

The number of Bricks each measuring 25 cm x 12.5 cm x 7.5 cm required to construct a 3 wall 6 m Long, 5 m High, and 0.5 m Thick, While the Mortar occupies 5 Percent of the Volume of the Wall is?

A. 8819

B. 6080

C. 9011

D. 2019

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

India is divided into how many pin code zones?
4

A. Six

B. Seven

C. Eight

D. Ten

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Which of the following is not an outdoor game?
5

A. Football

B. capture the flag

C. Uno<br

D. Frisbee

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Mahendragiri, the highest peak of the Eastern Ghats, is located in which one of the 6 following states?

A. Andhra Pradesh

B. Odisha

C. Telangana

D. Tamil Nadu

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Plants manufacture their food with the help of……..
7

A. Oxygen, Sunlight, Water

B. Carbon dioxide , Oxygen, Sunlight

C. Water, Sunlight, Carbon dioxide

D. Oxygen, Sunlight

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

Arrange the following in their chronological sequence :
8
i. Cripps Mission

ii. Montague Chelmsford Report

iii. Simon Commission

iv. Morley – Minto Reforms

A. ii, iii, i, iv

B. iv, ii, iii, i

C. iii, i, ii, iv

D. i, iv, iii, ii

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q14

In the alphabet how many Letters will be in between 10th and 24th Letter form the left
9 end ?

A. 13

B. 14

C. 17

D. 18

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q15

Which of the following types of natural disasters has no definite beginning and end ?
0

A. Earthquakes

B. Landslides

C. Hurricanes

D. Droughts

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q19

The maximum length (in bytes) of an IPv4 datagram is:

A. 32

B. 256

C. 1024

D. 65535

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q31

The term "Data" refers to:

A. The electronic representation of the information(or data)

B. Basic information

C. Raw Facts and figures

D. Both A and C

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q37

Communication over mobile phone is an example of which type of communication mode?

A. Simplex

B. Half - Duplex

C. Full - Duplex

D. Double - Duplex

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q39

Consider the statements given below and then choose the correct output from the given options :

```
def Change (N) :
N=N+10
print (N , end= '$$ ' )
N=15
Change (N)
print (N)
```

A. 25$$15

B. 15$$25

C. 25$$25

D. 2525$$

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q41

What is the output of the following expression?

```
Sports = "Paralympic Games"
print ( Sports. Split ( "m"))
```

A. [' Paraly ' , 'm' , 'pic Ga', 'm', ' es']

B. ('Paraly', 'm', 'pic Games')

C. ('Paraly', 'pic Ga', 'es')

D. ['Paraly', 'pic Ga', 'es']

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q50

Which of the following is the first and foremost step in Image Processing?

A. Image acquisition

B. Segmentation

C. Image enhancement

D. Image restoration

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q52

The kernel operates in a privileged mode, also known as:

A. User mode

B. Debug mode

C. Supervisor mode

D. Interrupt mode

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q56

Which of the following are advantages normally associated with B2B e■commerce?

A. Wide Reach

B. Shorter Cycle Time

C. Reduced Cost

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q68

In 3G and 4G mobile technologies, the character 'G' stands for :

A. Generation

B. GPRS

C. Grid

D. Google

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q69

What is MISO pin in the RFID Module?

A. Master In Slave Out

B. Manage Internal Slave Output

C. Master Internal Search Optimization

D. Manage Input Slave Op

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q73

_____attribute is used to specify the location of an image file.

A. alt

B. src

C. align

D. name

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 1 | Q77

Which of the following is the correct identifier ?

A. global

B. Break

C. def

D. with

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q1

Cat-5, Cat-5E and Cat-6 are examples of which of the following cables ?

A. Coaxial Cable

B. Shielded Twisted Pair Cable

C. Fiber Optic cable

D. Unshielded Twisted Pair Cable

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q3

Aggregate functions can be used with…….clause. They can not be used with……. clause.

A. WHERE, HAVING

B. HAVING, WHERE

C. GROUP BY, HAVING

D. SELECT, HAVING

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q4

The concept of NP-Completeness was introduced by:

A. Stephen Cook

B. Richard Karp

C. Donald Knuth

D. John Nash

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q6

Which among the followings is/ are true as per the ZigBee standards?

A. Low power consumption

B. Low data rate

C. Low range

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q9

A) Knowledge base (KB) is consists of set of statements. B) Inference is deriving a new sentence from the KB. Choose the correct option.

A. A is True, B is True

B. A is False, B is False

C. A is True, B is false

D. A is false, B is True

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

In Audio and Video Compression, each frame is divided into small grids, called picture 0 elements or_____

A. packets

B. mega pixels

C. frame

D. pixels

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

Micro teaching is more effective
1

A. always

B. after the teaching-practice

C. during the teaching-practice

D. during the preparation for teaching-practice

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

How can a teacher enhance effective learning in her elementary classroom?
5

A. By connecting the context to the lives of the students

B. By drill and practice

C. By encouraging competition

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q10

In order to keep himself alive and up to date, a teacher is required to dedicate himself to
6 acquire knowledge at the frontiers of new knowledge. This is required

A. to develop his I.Q.

B. to develop his emotion

C. to enhance his competence in teaching

D. to enhance his knowledge

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

Teacher's interest in teaching and the children can
9

A. never help children in any way

B. motivate the learners to learn

C. help the learners to learn everything

D. never encourage the learners

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

Which of the following uses the principle of specific to general?
0

A. Analysis method

B. Research/Discovery method

C. Synthesis method

D. Inductive method

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

Which of the following verbs is at greatest risk for misinterpretation:
1

A. List

B. Construct

C. Understand

D. Demonstrate

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

Which component of Lesson Plan is based on Flink's Taxonomy ?
2

A. Creating

B. Understanding

C. Analysing

D. Caring

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

A _____ is a guideline that can help you organize what learning and how learning
4 will take place in your lesson.

A. Content

B. Lesson plan.

C. Map

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

As a teacher when you see that children are fighting on the road, what will you do?
6

A. Ignore the sitution and move away

B. Tell the people to resolve the issue

C. Pacify them by giving advice

D. Tell them to run away

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q11

An assessment technique that allows students to demonstrate their knowledge through
7 oral presentations or performances is called:

A. Formative assessment

Learner-centered learning leads to_____
5

A. holistic development

B. Enhanced Activity

C. loss of interest

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q12

Two components of an educational objective are
6

A. Cognitive and affective

B. Expected behavior and learner's outcome

C. Performance and skills

D. General and specific

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q12

_____ is the apex institution involved in the planned and coordinated development of
8 the teacher education system in the country.

A. UGC

B. NCERT

C. NCTE

D. XSEED

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q12

When classroom climate is positive, then learners know that they are valued
9 _____.

A. as individuals regardless of their appearance, personality or achievement

B. only if they confirm to classroom norms

C. only if they perform well in examinations

D. only if they stay in their seats and speak only when asked.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Which statement is incorrect about the Tetris game?
1

A. The game was created by Alexey Pajitnov in 1984

B. The game consists of falling blocks, known as tetrominoes.

C. The game is played on a 10x10 grid

D. The objective is to clear lines by aligning blocks of the same color.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

A square pyramid has…....
2

A. Four faces

B. Three faces

C. Five faces

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

if A means +, B means-, Z means÷ and C means*, then
3

10C2A5B5=?

A. 5

B. 10

C. 15

D. 20

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

If F,V and E are respectively the number of faces, vertices and edges of a triangular
4 prism, then which of the following statements is true?

A. 4F+2V-3E=6

B. 2F+3V-2E = 10

C. 2F+4V-3E=8

D. 3F+2V-2E=11

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Which group of organisms does not have claws?
5

A. Mammals

B. Reptiles

C. Fishes

D. Amphibians

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Choose the correct option instead of the question mark in the given question.
6

DRAW : WARD :: TRAP : ?

A. RATP

B. PART

C. USBQ

D. ARTP

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Seema facing East walks 6 m. then turn right and walks 9 m. then she turn left and
7 walked 6 m. How far is she from starting point ?

A. 5 m.

B. 10 m.

C. 15 m.

D. 20 m.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Vitamin A and K is rich in……..
8

A. Rice crop

B. Poultry feed

C. Parasites

D. Manure

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q13

Which food group is mostly consumed by teenagers to get more calcium?
9

A. Grains

B. Meats and beans

C. Dairy

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Calculate the sum of lengths: 21 m 93 cm, 33 m 95 cm and 45 m 86 cm.
0

A. 99 m 74 cm

B. 98 m 74 cm

C. 99 m 75 cm

D. 101 m 74 cm

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

A Rectangular SandBox is 5 m wide and 2 m long. How many Cubic Metres of Sand is
2 needed to fill the Box into a Depth of 10 cm?

A. 2.5

B. 1

C. 5

D. 3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Which of the following statements is not correct with regard to a mathematics
3 textbook?

A. Examples in a mathematics textbook should be related to daily life of the students.

B. A mathematics textbook should have solved examples only.

C. A textbook of mathematics should not be very thick or heavy.

D. A mathematics textbook should have varied exercises to give practice to students.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

In which five year plan of independent India the focus was on the development of
5 industrialization -

A. Second

B. Third

C. Fifth

D. Sixth

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Which of the port is not a Natural Port?
6

A. Chennai

B. Mumbai

C. Cochin

D. Paradip

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Who was the founder of Mewar Praja Mandal ?
8

A. Motilal Tejawat

B. Vallabh Bahi Patel

C. Manik Lal Verma

D. Swami Govindanand

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q14

Which of the following statements is/are correct?
9 (1) First Law Commssion recommended Indian Penal Code, 1860.
(2) Indian Penal Code, 1860 has been completely replaced by the Bharatiya Nyaya
Sanhita, 2023.
Select the correct answer from the given options:

A. 1 Only.

B. 2 Only

C. Both 1 and 2

D. Neither 1 nor 2

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q16

Upward multiplexing involves:

A. Combining multiple data streams into one

B. Distributing data to different physical channels

C. Separating data into smaller units

D. Reordering data packets

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q18

What is synonymy relation?

A. A is part of B

B. A denotes same as B

C. A is a kind of B

D. A is superordinate of B

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q23

Which of the following is a top-down approach in which the entity's higher level can be divided into two lower sub-entities?

A. Aggregation

B. Generalization

C. Specialization

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q28

In Huffman coding, which characters are usually assigned shorter codes?

A. Characters with higher frequency

B. Characters with lower frequency

C. Characters with longer ASCII values

D. Characters with shorter ASCII values

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q52

Uniform-cost search expands the node n with the _____

A. Lowest path cost

B. Heuristic cost

C. Highest path cost

D. Average path cost

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q59

A _____(invented by Paul Roget in 1828) is a simple mechanical toy which creates the illusion of movement.

A. Binocular

B. Zoetrope

C. Thaumatrope

D. BOOM

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q69

Identify the output of the following code segment:
S = "an apple. a toy."
S = s. find ('a ' , 2)
print (s)

A. 0

B. 1

C. 3

D. a'

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q77

……..compares neighbouring elements only and swaps them when necessary.

A. Selection Sort

B. Bubble Sort

C. Insertion Sort

D. Quick Sort

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q87

The default color of vlink is _____ .

A. Green

B. Purple

C. Blue

D. Yellow

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 03 Nov 2025 | Shift 2 | Q88

In binary subtraction using the simple method, if a borrow is needed from a digit and the borrowed digit is 1, what happens to the next digit's value?

A. It remains unchanged

B. It is incremented by 1

C. It is decremented by 1

D. It becomes 0

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q5

De Morgan's Theorems are particularly useful in simplifying logic expressions that have a large number of _____.

A. Variables

B. Constants

C. Terms

D. Operators

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q9

The aliasing effect on an image can be reduced using which of the following methods?

A. By reducing the high-frequency components of image by clarifying the image

B. By increasing the high-frequency components of image by clarifying the image

C. By increasing the high-frequency components of image by blurring the image

D. By reducing the high-frequency components of image by blurring the image

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

Affective domain focuses on adoption of a value system as a part of life style in
1

A. Responding

B. Valuing

C. Organization

D. Characterization

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

"Society determines the roles of male and female." This statement articulates-
2

A. Gender as an inherent construct

B. Gender as a hereditary endowment

C. Gender as an intuitive construct

D. Gender as a social construct

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

The affective domain was classified by
3

A. Benjamin S. Bloom

B. Simpson

C. Krathwhol

D. Both A and C

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

Which domain of learning objectives is not being evaluated through our present system
5 of examination:

A. Affective

B. Cognitive

C. Psychomotor

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

Individualized Education Programme is planned from the perspective of-
6

A. Special Education Programme

B. Child-centered Education Programme

C. Open School Education Programme

D. e-Learning Education Programme

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

For the change in the behaviour of the children, the most effective method is
7

A. affectionate advice

B. reward

C. punishment

D. expulsion from house

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

Which educational psychologist believed in the fact that 'All children have the potential
8 to learn'?

A. Friedrich Frobel

B. John Dewey

C. Johann Friedrich Herbart

D. Maria Montessori

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q10

The drawback of micro teaching is –
9

A. Not successful in real classroom conditions

B. Lack of supervision is found

C. No room for feedback

D. Longer duration of study

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

Component of curriculum is:
2

A. Teaching strategies

B. Objectives

C. Evaluation

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

Which of the following activity is considered in the post-active phase of teaching?
4

A. distribution of teaching strategies

B. changing the strategies in terms of evidences gathered

C. diagnosis of the learners

D. sequencing the elements of content for presentation

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

An appropriate verb for an objective written to reflect assessment in the psychomotor
5 domain of learning would be:

A. Acknowledge

B. Explain

C. Relates

D. Assembles

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

The evaluation used to improve the contents during curriculum development is:
8

A. Summative evaluation

B. Formative evaluation

C. Diagnostic evaluation

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q11

Who developed inductive approach in science teaching?
9

A. Aristotle

B. Bruner

C. Gagne

D. Francis Bacon

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

As a planner, the teacher must
0

A. encourage classroom and panel discussion

B. be guidance minded

C. first decide what changes should take place in the learner

D. observe students' reactions skillfully

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

The Socratic method is known as
1

A. Lecture demonstration method

B. Discussion method

C. Inquiry method

D. Question- Answer method

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

An outline-of the topics of a subject which covered in specific time is called:
2

A. Programme

B. Syllabus

C. Curriculum

D. Course

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

As a facilitator, the teacher must be
3

A. dominating

B. short-tempered

C. autocratic

D. warm, understanding and self-controlling

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

Delivering lectures about key concepts that lead to student discussions is an example
4 of

A. Engage

B. Elaborate

C. Explore

D. Explain

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

At the highest level of hierarchy is
6

A. Understanding

B. Application

C. Evaluation

D. Analysis

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q12

The best method to inspire students for hard labour is
8

A. one should himself do hard labour seeing which students will be inspired spontaneously

B. laborious students should be rewarded

C. a lecture about the importance of hard labour be delivered

D. the example of success through hard labour be presented

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Which of the following would you use to shape the habits?
0

A. Indoctrination

B. Teaching

C. Training

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Which of the following is not prism?
2

A. cuboid

B. circle

C. Pentagonal Prism

D. cube

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Which of the following statements with reference to Surface inversion of termerature
3 is/are correct ?
1. It causes instability in the lower layers of the atmosphere.
2. This inversion commonly lasts for a few hours until the Sun comes up.
Select the correct answer from the given options :

A. 1 Only

B. 2 Only

C. Both 1 and 2

D. Neither 1 nor 2

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Painting to a boy, Neha said " He is the son of the only child of my Grand father. How is
4 the boy related to Neha?

A. Brother

B. Cousin

C. Uncle

D. Son in law

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Asia’s first underground Hydel Project is located in which of the following States in India?
5

A. Jammu and Kashmir

B. Himachal Pradesh

C. Arunachal Pradesh

D. Uttar Pradesh

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

What is the national animal of America ?
6

A. Tiger and Bald Eagle

B. Bald Eagle and the American Bison

C. American Bison and Yak

D. Golden eagle and Bison

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Special Economic Zones (SEZ) are developed to
7

A. Generate additional economic activity throughout the country

B. Beautify suburban areas

C. Upgrade the facilities in the countryside

D. Promote investment from domestic and foreign sources

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

_____ is the ability to do work.
8

A. energy

B. force

C. energy and force both

D. none of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q13

Where is the old and over 2 km-long ‘Pamban Railway Bridge’, which attracts tourists from all over the country?
9

A. Nilgiri

B. Krishna delta

C. Palk straits

D. Malabar coast

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

What is a common effect of inflation on purchasing power?
0

A. Increase in purchasing power

B. Decrease in purchasing power

C. No effect on purchasing power

D. Increase in savings

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

Choose the correct option instead of the question mark in the given question.
1

Mango : Fruit :: Onion : ?

A. Root

B. Fruit

C. Flower

D. Stem

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

In the given number series what number will come in place of the Question Mark
2 Symbol.

340, 316, 286, 250, ?

A. 280

B. 249

C. 208

D. 148

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

What did Gandhi do to break the salt law?
3

A. Dandi March

B. Ahmedabad March

C. Champaran March

D. All

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

If in a certain code, ‘ABCD’ is written as 24 and ‘EFGH’ is written as 1680, then how is
4 ‘IJKL’ written in that code?

A. 11880

B. 11240

C. 7920

D. 5940

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

What is the remainder when 2765 is divided by 6?
5

A. 5

B. 6

C. 4

D. 3

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

The number of vertices (V) , edges (E) and faces (F) of a polyhedron are respectively
6 10,15 and x. Then, the value of (3x-12) is :

A. 9

B. 14

C. 18

D. 7

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

What are triangular numbers?
7

A. The numbers whose dot pattern can be arranged in triangles

B. The numbers which form a triangle on adding

C. The numbers which have three digits

D. The numbers which do not give perfect squares on adding

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

Choose the correct option to fill in the blank.
8 The Vernacular Press Act was passed in…….on the lines of the Irish Press Act.

A. 1878

B. 1968

C. 1887

D. 1778

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q14

6 Person are sitting in two rows, numbered 3-3. If E does not sit at any of the ends. Dis
9 second to the left of F. C is neighbour of E and sits diagonally opposite to D. B is
neighbour of F. Then Tell who will be in front of B ?

A. A

B. E

C. C

D. D

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q15

What is the full form of SCADA?

A. Supervisory Control and Document Acquisition

B. Supervisory Control and Data Acquisition

C. Supervisory Column and Data Assessment

D. Supervisory Control and Data Assessment

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q15

A series is given with one term missing. Select the correct alternative from the given
0 ones that will complete the series.
B, C, E, H, L, ?

A. P

B. O

C. N

D. Q

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q19

Consider the statements given below and then choose the correct output from the
given options :
D={ 'S01 ' : 95, 'S02' : 96 }
for I in D :
print (I , end = '#')

A. S01#S02#

B. 95#96#

C. S01,95#S02,96#

D. S01#95#S02#96#

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q20

In Karnaugh Maps, which of the following terms refers to a group of adjacent cells that
can be combined to simplify a logic expression?

A. Block

B. Cluster

C. Pair

D. Group

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q26

Which form of e■marketplace brings together buyers and sellers from multiple
industries, often for MRO materials?

A. Horizontal

B. Vertical

C. integrated

D. isolated

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q29

Which type of adder is designed to overcome the propagation delay issues in ripple carry adders and generate carry signals more efficiently?

A. Ripple Carry Adder

B. Carry Look-Ahead Adder

C. Binary Adder

D. Half Adder

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q30

This is a Assertion and Reason type questions. This question consists of two statements, namely, Assertion (A) and Reason (R). Select the most suitable option considering the Assertion and Reason.Assertion (A) : SMS is an acronym for Smart Message Service.Reason (R) : SMS is the most common technology for delivering short, concise and important messages quickly.

A. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

B. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).

C. Assertion (A) is true, but Reason (R) is false.

D. Assertion (A) is false, but Reason (R) is true.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q32

Which among the followings is not a property of knowledge representation?

A. Representational Verification

B. Representational Adequacy

C. Inferential Adaquacy

D. Inferential Efficiency

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q33

Which of the following describes e■commerce?

A. Doing business electronically

B. Doing business

C. Sale of goods

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q35

Evaluate the given postfix expression:
35*6+23*-

A. 39

B. 15

C. -9

D. -17

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q40

When using the parity bit method, how does the receiver determine if an error has occurred during transmission?

A. By counting the number of ones in the data

B. By comparing the parity bit with the data

C. By performing modulo arithmetic

D. By comparing the number of ones with the parity bit

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q42

What will be the output of the following statement ?
Print (14%3**2*4)

A. 16

B. 64

C. 20

D. 256

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q50

Greedy search strategy chooses the node for expansion in _____

A. Shallowest

B. Deepest

C. The one close to the goal node

D. Minimum heuristic cost

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q56

The easiest way in which we can transfer control is when the old backup site sends _____ to the old primary.

A. Redo logs

B. Primary Logs

C. Undo Logs

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q60

Each ___ represents a particular colour.

A. Frame

B. Character

C. Pixel value

D. None of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q61

The quality of ___ remains unchanged even if the size is increased or decreased.

A. Vector graphics

B. Illustrations

C. Photographs

D. Line images

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q68

Which of the following is not considered as a type of e-waste ?

A. Televisions

B. Personal Electronic Devices

C. Scanner and Copier

D. Newspaper

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q72

What is the value of the following expression?
3 + 3.00, 3**3.0

A. [6.0, 27.0]

B. (6.0, 9.0)

C. (6, 27)

D. (6.0, 27.0)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q73

What is the primary goal of the Backtracking approach in solving the Hamiltonian Cycle problem?

A. To find a cycle with the fewest edges

B. To find a cycle with the lowest weight

C. To find a cycle that visits every vertex exactly once

D. To find a cycle with the maximum number of edges

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q77

Which characteristics are taken together in chromaticity?

A. Hue and Saturation

B. Hue and Brightness

C. Saturation, Hue, and Brightness

D. Saturation and Brightness

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q84

In BFS, vertices are explored level by level, starting from the:

A. Deepest level

B. Shallowest level

C. Middle level

D. Highest degree vertex

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 04 Nov 2025 | Shift 2 | Q98

How many inputs does a full -adder circuit have for each individual binary digit being added or subtracted?

A. 1 input

B. 2 inputs

C. 3 inputs

D. 4 inputs

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q5

Which of the following applications include in the Strategic Computing Program?

A. Battle Management

B. Autonomous systems

C. Pilot's associate

D. All of the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q9

The default baud rate of Modbus RTU is?

A. 19600

B. 19200

C. 38400

D. 57600

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

Arrange the following electromagnetic waves in increasing order of their frequency
0 range.
(A) Microwaves
(B) Infrared Waves
(C) Light Waves
(D) Radio Waves
Choose the correct answer from the options given below :

A. (A), (C), (D), (B)

B. (D), (C), (B), (A)

C. (B), (A), (D), (C)

D. (D), (A), (B), (C)

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

The mirror of the Society is:
1

A. playground

B. community

C. Hospital

D. School

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

The number of domains in taxonomies of educational objective is
2

A. Two

B. Three

C. Five

D. Six

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

Who has developed the 'Guidelines on information literacy for lifelong learning?
3

A. RUSA

B. ACRL

C. SCONUL

D. IFLA

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

Which type of lesson plan is simple and straightforward?
4

A. Daily lesson plan

B. Weekly lesson plan

C. Sequential lesson plans

D. Monthly lesson plan

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

The most natural and simple way of teaching a lesson is to proceed from
5 Statement I. something that the students already know
Statement II. those facts which are unknown to the learners
Statement III. Examples
Statement IV. Illustrations
Choose the correct option:-

A. I, III and IV

B. Only I

C. Only II

D. III and IV

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

Which one of the following options best describes progressive education?
6

A. Learning by doing, project method, cooperative learning

B. Thematic units, regular unit tests, ranking

C. Personalized learning, ability grouping, labelling students

D. Project method, ability grouping, ranking

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

In M.C.Q the correct option is:
7

A. Response

B. Answer

C. Distractors

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q10

In M.C.Qs the statement of the problem is:
9

A. Option

B. Distractor

C. Premise

D. Stem

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

The stage in problem solving that includes the preparation of suitable hypothesis for
0 investigation.

A. Survey

B. Planning for action

C. Problem description

D. Discussion

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

While discussing about friction, a teacher gave a number of examples to explain the
1 concept. Some of the examples where friction is useful in our day-to-day life as-quoted
by the teacher are given below.
I. We are able to write because of friction between the tip of the pen and the paper.
II. We are able to walk because of friction between our feet and the ground.
III. A ball thrown vertically upwards comes back to us due to friction.
IV. We are able to stop a moving vehicle by applying brakes because of friction.
The correct examples were

A. III, IV and I

B. IV, I and II

C. I, III and IV

D. II, III and IV

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Having variety of question sets in a question paper increases it _____
2

A. Objectivity

B. Reliability

C. Validity

D. Difficulty

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

If you join a teacher fraternity and choose to dress like most of the others in your
3 group, you are exhibiting-

A. group identity

B. group obedience

C. group compliance

D. group conformity

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

What is the 4 steps for constructing a test ?
4

A. Planning and preparing the test

B. Try Out the test

C. Evaluating the test

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Continuous and Comprehensive evaluation was initiated by:
5

A. NCTE

B. CBSE

C. NCERT

D. SCERT

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Learning is generally considered as a permanent change in behavior' based on
6

A. Practice and experience.

B. Practice and challenge.

C. Challenge and experience.

D. Challenge and reinforcement.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

The characteristics of discussion method is
7

A. Ensure maximum participation

B. Students have the opportunity to criticize and evaluate.

C. Logical and meaningful criticism should be accepted

D. All of them

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Which of the following teaching method is focused on the development of creative
8 minds?

A. Project

B. Brain storming

C. Observation

D. Demonstration

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q11

Which type of lesson plan is concise and focused on specific concepts or skills?
9

A. Sequential lesson plans

B. Weekly lesson plan

C. Daily lesson plan

D. Monthly lesson plan

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

_____ plot is used to show the spread and centers of a dataset.

A. box

B. line

C. bar

D. histogram

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

The 5E learning cycle boosts student engagement and motivation through
0

A. Constructivist approach

B. Humanistic approach

C. Naturalistic approach

D. Pragmatist approach

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

The part of the curriculum designed to meet the needs of all students is:
1

A. General education

B. Specialized education

C. The extra-curriculum

D. The program of studies

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

To demonstrate success by focusing on the learner’s desired outcome, a reasonable
2 list of_____objectives should be provided.

A. Informational

B. Mastery

C. Challenging

D. General

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

In comparing lecture and demonstration lessons, which one of the following is not true?
3

A. Slow children derive benefit from a lecture than brighter one

B. There are more activities for the students in a demonstration lesson

C. The lecture method is more conductive and useful for larger group

D. It is difficult to ascertain students' learning in a lecture session

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

The most expected immediate outcome of teaching is-
5

A. Changes in the behavior of students in a desirable direction.

B. Development of the total personality of students.

C. Building characters of the students.

D. Getting selected for a suitable job.

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

Micro teaching was first adopted at Stanford University by
7

A. Stephen M Corey

B. Dwight W Allen

C. John Dewey

D. Arthur Cunningham

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q12

Introduce a problem that students might not be able to solve yet is an example of
8

A. Explore

B. Engage

C. Explain

D. Elaborate

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

Which one among the following is NOT a major oil field located in Gujarat?
1

A. Ankaleshwar

B. Kosamba

C. Mehsana

D. Moran

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

Who among the following is the author of the book 'The Indian Struggle 1920 - 1942' ?
2

A. Vinayak Damodar Savarkar

B. Subhas Chandra Bose

C. Vallabhbhai Patel

D. Sarat Chandra Bose

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

7 is to 34 as 5 is to ?
3

A. 33

B. 24

C. 54

D. 41

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

Chronologically arrange the following political events related to Indian National
4 Movement beginning from the earliest :
1. Formation of Swaraj Party
2. Communal Award
3. Lucknow Pact
4. Simla Conference
Select the correct answer from the given options:

A. 3, 1, 2, 4

B. 1, 3, 2, 4

C. 2, 1, 4, 3

D. 1, 2, 3, 4

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

As per the Cabinet Resolution of 1st January 2015, the NITI Aayog consists of :
5 1. Prime Minister of India
2. Governing Council comprising of Chief Minister of all the States and Leiutenant
Governors of Union Territories
3. Rural Development Minister
4. Chief Executive Officer to be appointed by the Prime Minister
Select the correct answer from the given options :

A. 1, 2 and 3

B. 1, 2 and 4

C. 1 and 2 only

D. 3 and 4 only

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

Which nutrient protects us from diseases?
6

A. Vitamin and minerals

B. Fats and carbohydrates

C. Protein

D. All of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

In the given letter series what letter will come in place of the question Symbol.
7
DIL, GLO, JOR, ?

A. MRV

B. MRQ

C. MRU

D. NRO

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

B is the Aunt of C. A is the Husband of B. B is the sister of D. Tell how A is related to D?
8

A. Uncle

B. Brother-in-Law

C. Niece

D. Son

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q13

The joint between separate faces of a solid is called an…….....
9

A. edge

B. face

C. vertex

D. None of these

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Which one is not a physical threat

A. Hacking

B. Storm

C. Fire

D. Flood

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Which is the longest National Highway in India?
0

A. NH 5

B. NH44

C. NH10

D. NH 15

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Aaron weight 49 kg 357 g and Ron weights 32 kg 458 g. Who weighs less and by how
1 much?

A. Ron weighs less by 16 kg 899 g

B. Aaron weighs less by 16 kg 899 g

C. Ron weighs more by 16 kg 899 g

D. Aaron weighs more by 16 kg 899 g

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

If we combine two consecutive triangular numbers, we get?
2

A. Rational Number

B. Whole Number

C. Perfect Square

D. Prime Number

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Which of the following is a waterborne disease?
3

A. Measles

B. malaria

C. Lung disease

D. Hepatitis

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

“Family is a unit consisting of a mother, father and their two children”. This statement
4 is

A. incorrect, because the statement should specify that the children are biological

B. incorrect, because there are many kinds of families and one cannot classify family as being of only one kind

C. correct, since this is an ideal family size

D. correct, because this is what all Indian families are like

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

If the median of the data 30,8,7,3,17,15,21,24,29,23 is x and the median of the data 5 obtained by replacing 3 by 33 and 8 by 18 in the above data is y, then what is the difference between y and x ?

A. 2

B. 3

C. 4

D. 1

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Choose the correct option instead of the question mark in the given question.
6

456 : 15 :: 627 : ?

A. 12

B. 15

C. 18

D. 21

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

In English alphabet which Letter is in between the Letter s and the Letter G ?
7

A. N

B. M

C. L

D. P

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

Which of the following are macronutrients commonly found in soil?
8

A. Carbon, Hydrogen, Oxygen

B. Nitrogen, Phosphorus, Potassium

C. Iron, Manganese, Zinc

D. Boron, Copper, Molybdenum

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q14

ABCD is a rhombus in which ∠ADB = 25 Degree. Then, the value of (2∠BAD - ∠ABC) is
9 :

A. 230 Degree

B. 240 Degree

C. 210 Degree

D. 260 Degree

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q15

Globalization signifies which of the following :
0

A. Time-space compression

B. The integration of the world economy

C. The growth of supra- territorial relations between people

D. All the above

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q16

What is the key advantage of using a carry-lookahead adder instead of a ripple-carry adder?

A. Simplicity of design

B. Faster propagation delay

C. Lower power consumption

D. Reduced gate count

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q20

Multimedia system require hard real time scheduling _____

A. to ensure critical tasks will be serviced within timing deadlines

B. to deliver the media file to the client

C. to minimize the delay

D. for security

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q23

What is the primary purpose of data compression in data communication?

A. To increase latency

B. To reduce bandwidth usage

C. To decrease error rates

D. To improve security

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: C (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q26

Identify the correct output of the following code snippet :

```
game="olympic2024"
print (game. index ("C") )
```

A. 0

B. 6

C. -1

D. valueError

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q28

Which of the following is the correct expansion of SMS ?

A. Short Message Service p { font–family: Arial; }

B. Small Multimedia Service p { fontfamily: Arial; }

C. Short Multimedia Service p { font: Arial; }

D. Small Message Service p { font–type: Arial; }

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q30

While creating a table, which constraint does not allow insertion of duplicate values in the table ?

A. UNIQUE

B. DISTINCT

C. NOT NULL

D. HAVING

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: A (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q32

Building blocks of a frame structure are?

A. Facts and Data

B. Procedure and Default values

C. Frame names

D. Frame inference in hierarchy

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: D (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q36

A complex SCADA system has _____levels?

A. 6

B. 5

C. 3

D. 4

Correct option: Verified answer key not supplied in this source PDF. Candidate-selected option: B (not verified as correct).

2025 | 07 Nov 2025 | Shift 1 | Q43
